Time Growing Short

Just one more six-weeks' period before school is out! That probably sounds good to a great many students, but is vacation a time to look forward to? It may be in one sense of the word but not in another. The time school is out is partly a sad time. Several of the students are leaving Heppner high school for good, although they are only underclassmen. The seniors, some of them our best friends, are leaving to go to college or for jobs in distant towns. The ending of school also means the end of a great many good times. It means that there is another high school year gone and all those good times with it. When the ending of school means all these things, why are so many students wishing for it? Instead of just sitting around and wishing for school to be out, why don't they all try to make the most of the good times in the last six weeks of school? There are thousands of opportunities floating around such as the possibility of becoming a student body officer, or getting more recognition by using one's talents in making some exhibits for Open House. These are only a few of the things a person can do. So with these thoughts in our mind, let us use the last six weeks of school to the best advantage.

Sophomores Win Ticket Contest

Through the aid of the other classes in the ticket sales contest, the junior class play, "Crashing Society," was made a howling financial success. As was announced last week, the sophomores, in a last hour ticket-selling spurge, forged ahead of their competitors, selling \$21.70 worth of tickets, their margin of win topping others by approximately \$10. The juniors were second with \$11.40 worth of tickets sold. Taking the lead in the forepart of the contest but dropping back as it progressed, the freshmen finished in third place, with \$8.80 to their credit. Through lack of interest, the ever industrious seniors, feeling that last year's ticket selling meant a vacation this season, sent their forces to scout the town for stragglers and returned with \$1.50 in their pockets, a remarkable feat in itself.
As a whole, the contest was very successful, and the junior class congratulates the students for the fine cooperation shown.

Brain Buster

A lady once purchased a box of peaches in a grocery store. The purchase amounted to sixty cents. The lady paid the correct amount in two new American coins, but one of them was not a dime. How could she do this?
Answer to last week's Brain Buster: Since nobles always tell the truth, a noble would invariably say he was a noble. And since slaves always lie, they would never say they were slaves. Therefore, none of the group would say he was a slave.
Since the second said that the first said he was a slave, he lied (because no one says he is a slave) and was therefore a liar and a slave. The third said that the second was a prince but we already knew that the second was a slave. Therefore the third lied, too. So he, also, was a slave. This leaves only one man, the first, and he must be the noble.

Will the Band Hit?

Will the band hit? The answer is "yes." It will not only hit, but it will make a home run. In the last few weeks the band has progressed very rapidly, and in the remaining rehearsals it should be in top condition for the state contest at Corvallis.

This trip is made possible by the cooperation and donations of the Heppner people. The band sincerely appreciates this help and will try its best to do something of which the people of Heppner will be proud.

Next Saturday, April 3, is Band Day for the Heppner bandsters. They will appear Saturday afternoon on Main street to give another concert. The Elks have been very generous by arranging for a dance to be held in their hall this Saturday night and have secured the services of Elmer Steele and his swing band. This dance is for the benefit of the Heppner school band.

Let's make it a point to attend this dance. The band will play the three numbers which they are going to play at the contest in order to give you a chance to form your opinions of what showing they will make at Corvallis.

Ten Years Ago This Week

Last Saturday about eighteen sophomores journeyed a short distance up Skinner creek and spent a pleasant afternoon. Terrel Bengé and Paul Jones took cars. Miss Fishel and Miss Wright chaperoned the party. A delicious lunch of hot dogs, salad, sandwiches, ice cream, cake was consumed. After two or three games of ball the party returned home.

The Heppner high school baseball team will meet the Lexington team in their first game of the season. This game will be played on the Lexington field. A large number of players have been turning out this season, and although the team has not been chosen, this game is expected to be very snappy and interesting, due to the fact that Heppner and Lexington are very close rivals and usually play the closest and fastest games of the season.

Plans are under way for the junior-senior banquet, which will take place on the 4th of May.

"There's Something in the Air"

What's wrong with everyone these balmy spring days? The students sit around in the class rooms with blank expressions on their sleepy faces and glance longingly out of the windows. Is it late hours they're keeping, or is it the spring sunshine and out-of-doors they are thinking of? Well, whatever it is, they'd better be getting it, for next Monday the six weeks' examinations begin. Why not wait until next Wednesday afternoon when the teachers go to Spokane for institute to get that acute case of spring fever?

Baseball Game Saturday

Saturday afternoon the Heppner high school baseball team will attempt to add another victory to their record by defeating Umatilla's hard hitting team. Last Saturday the high school tried their strength against the CCC camp and made a fairly good showing by defeating them 9-7. It is the hope of the student body that the town people will turn out and support the team as they have in the past two years. With a good crowd at the games, Heppner should again have a championship team.

Did You Know That—

It is said before radio there were only three methods of communication—telegraph, telephone, and tellawoman?

A committee is a gathering of important persons who singly can do nothing but who together decide nothing can be done?
That Fred Hoskins was looking for girls at Condon?
That Lawrence Wehmeyer has an attraction at Arlington?
That Marvin Casebeer can squeal?
Riley Munkers likes an usher?
Gabby likes water from a fire hydrant?

Six weeks' exams come next week?

Teachers to Attend Institute

School will be dismissed at 2:00 P. M., April 8, so the teachers can start for Spokane and the institute which is to be held there. The six

weeks' exams will be held Monday and Tuesday of next week instead of Thursday and Friday.

Musicians, Typists Compete at O. S. C.

Corvallis—The week end of April 9 and 10 will see a large number of Oregon high school boys and girls assembled on the O. S. C. campus to take part in two major state-wide contests.

Classes A and D of the annual state high school band contest will compete at Oregon State April 9 and 10, and classes B and C at U. of O. the following week end. Band leaders decided to divide the contest this year because the number competing each year has grown so large. All of the solo contests will be held on Friday, April 9, according to Capt. H. L. Beard, conductor of the college R. O. T. C. band.

Several hundred more high school students will arrive on the campus Saturday to match their speed and accuracy in the annual state high school typing contest sponsored by the secretarial science division. In addition to the usual official cups and awards, a number of the major typewriter companies are offering special prizes to those showing the greatest skill.
