

Local Happenings

Henry Smouse, in the city Monday from the farm north of Ione, reported lots of moisture in his section for the time being and that he would welcome sunshiny days for a while. He was eyeing the wheat market with interest, and though pleased with the upward trend, said reported quotations so far were based on Portland delivery and that by the time the freight and other dockage is made the price actually received by the farmer is not nearly so big. For instance, \$1.16 at Portland means a maximum of about \$1.04 at home and probably less than \$1 by the time deductions are made for smut, mixture, light weight or a number of other things which may lower the wheat grade.

E. E. Rugg, whose many years of residence on Rhea creek makes him no little authority, said when in town Monday that the flow of that creek has held the steadiest for the longest period this spring that he has ever known it. He had seen higher water quite a few times, but he had never seen so large a volume of water hold for as long a time as has come down the creek this spring.
