Pinball Machines To Go by Sept. 1st

Pinball machines in Morrow county are slated for the discard by September 1st, according to announcement from the office of Sheriff C. J. D. Bauman on instructions from District Attorney Frank C. Alfred.

A recent test case of pinball machine legality was made in Marion county where the decision against their use was given, and following which the attorney general ruled that action in the various counties was left in the hands of the district attorneys. The action here is in line with that being followed generally throughout the state.

The basis of contention for operation of the pinball machines has been that the opportunity of "beating" them is a matter of skill and not of chance. The decision of the Marion county court, however, placed them in the realm of strictly gambling devices such as are prohibited by state statute.

VISITS WAR ZONE

Miss Mary Monahan, daughter of Mr. and Mrs. Frank Monahan, who recently accepted a position as stewardess on the S. S. President Jefferson, Dollar liner, has written her parents that she has left China. They were in the midst of fighting, but kept the American flag aloft for protection.

Billy is a member of the dance orchestra on the Saratoga, large airplane carrier, in drydock at Bremerton for three months' overhaul. He was in San Francisco for the Golden Gate bridge fiesta, and expects to get to visit the worlds fairs at San Francisco and New York.

R. B. RICE ILL

R. B. Rice of Artesian Well farm north of Lexington was taken to Portland last evening by Mr. and Mrs. Joseph Belanger to seek relief from a severe attack of asthma.

Oregon Traffic Deaths

A series of weekly articles on the problem of Highway Safety by Earl Snell, Secretary of State. Do you believe in signs? You don't have to be superstitious to believe in the ones placed by the highway department for your guidance and the promotion of safety on the highways. This belief in signs requires only common sense.

No one "knows the road" so well that he can afford to ignore the warnings scientifically located along our highways. Each location chosen for these signs is given careful study. Each sign is there for a definite purpose and that purpose is the safety of the motoring public.

All square signs mean caution. They cover men at work, cross roads, school zone and side road. All diamond shaped are slow signs for various types of curves, loose

gravel, tunnels, narrow bridges, etc. Stop signs are octagon in shape, and all signs at railroad crossings are round.

Many thousands of dollars are spent annually in the placing of these signs. They cannot be ignored with impunity. The sensible driver will take full advantage of the assistance they offer in safer driving. Obey the laws and rules of the road, follow the directions of the highway signs and help eliminate Oregon's traffic deaths.

NOTICE

As per City Ordinance No. 63 it is unlawful to operate bicycles or other vehicles of the same general type upon the sidewalks of the City of Heppner.

Conditions are such that this ordinance must be obeyed.

Notice is hereby given that after Sunday, August 15, violators of said ordinance will be subject to fine.
