

299 Registration Recorded With Start of School

Class Elections, Beginning of Football Practice in Week

Enrollment of 299 in the grades and high school, 27 less than on opening day last year, is expected to increase considerably next week with return of 4-H clubbers from the state fair and entrance of late comers, announces Alden Blankenship, superintendent.

In the grades enrollment of 183 compares with 199 on opening day last year, and 116 in high school compares with 127 a year ago.

Election of officers in the various classes in high school, and start of football practice with a squad of 30 boys, are features of the opening week's activities.

One teaching vacancy, that in the fifth grade, remains yet unfilled, with Mrs. Marie C. Smith of Pendleton substituting until a contract is signed. All other teachers reported for the opening and have been busy getting the year's work under way.

In charge of various departments in the high school are Alden Blankenship, superintendent; Robert D. Knox, principal and physical education; Norbert Peavy, English and history; Miss Shirlee Smith, commerce; Miss Cecelia Nordstrum, home economics; William S. Bennett, Smith-Hughes, science and mathematics; Mrs. Ethel Clark, part-time.

The grade staff includes Miss Neva Neill, 1st; Mrs. Elizabeth Dix, 2nd; Miss Mary White, 3rd; Miss Lorena Wilson, 4th; Mrs. Marie C. Smith, 5th; Kenneth McKenzie, 6th and assistant physical education director for the grades; Miss Juanita Leathers, 7th; Harold Buhman, 8th and grade principal.

Constitution Day Observance Set

Portland, Sept. 7.—Announcement that Morrow county will be represented in the Constitution Day program to be held here Friday, September 17, as part of the statewide convention of the Oregon Republican club was made today by Lowell C. Paget, president of the G. O. P. organization.

Paget named as Morrow county members of a Constitution Day committee Spencer Crawford and Lawrence Beach.

The Constitution Day program will be held in the Lincoln high school auditorium at 8:30 P. M. with Senator Frederick Steiwer of Oregon, keynoter of the 1936 Republican national convention, as the speaker of the evening.

Paget has called upon branches of the republican club in all sections of the state to move upon Portland for the two days of the convention, Friday and Saturday, September 17 and 18, to sound a cry for the 1938 elections.

Controversial resolutions, with the future policies of the republican party as the issues, are expected to make their appearance on the convention floor. A liberal bloc has threatened to split the convention wide open to get its beliefs on record.

The convention will open Friday at 10 A. M. with registration and appointment of committees. There will be round table discussions by leading speakers from various counties.

After luncheon there will be more round table discussions followed by dinner.

On Saturday the convention will resume at 10 A. M. to consider resolutions, reports and elections.

There will be golf and other activities in the afternoon, with the convention coming to a climax with a cabaret in the Multnomah hotel. There will be dancing and regular cabaret entertainment.

Mrs. Floyd Adams and children have moved from the farm near Hardman to the home in town for the school year.

American Boy Introduces a New Football Game

In the early fall issues of THE AMERICAN BOY there'll be presented the story of a new game—six-man football—fast as professional football, wide open as basketball, thrilling as hockey!

The game came to life through the need of small schools for some substitute for 11-man football, which was too expensive. Stephen Epler, a Nebraska graduate student in athletics, developed the game of six-man football to meet this need. In six-man football anybody can score, the possibility of injury from mass plays is minimized, and the game is open enough for spectators to follow every exciting development.

The new game is a hit. New schools are taking it up every day. In coming issues THE AMERICAN BOY tells the world about this practical new game. In addition, it presents The American Boy Official Handbook, which can be obtained from the magazine at 20 cents a copy, or 15 cents when bought in bulk.

NOTE: Subscription prices of THE AMERICAN BOY will be raised in the near future. Send your subscription order at once to take advantage of the bargain rates now in effect: one year at \$1.00 or three years at \$2.00. Foreign subscriptions 50c a year extra. Send your name, address and remittance to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Mich. On newsstands the price is 15c a copy.

Wheat Growers Warned of Surplus

A warning to wheat growers of the nation of the dangers of over-production next year, recently issued by the bureau of agricultural economics, has been backed up by an advance statement from the agricultural adjustment administration indicating that the probable provisions of the 1938 agricultural conservation program will call for a further reduction in soil depleting crop acreages on the part of those who participate in the program.

The present situation regarding wheat has been emphasized recently by an analysis issued by the extension economist at Oregon State college, in which it was shown that while present prices of wheat are the most favorable in many years because of the world shortage, it is highly improbable that even the increased exports of the current marketing year will succeed in preventing an exceptionally large carryover next July.

The seeded acreage for the 1937

crop totaled 81 million acres, compared with a five-year average for the years 1928-1932 of only 67 million acres. Yields were below average, however, hence the production this year is estimated at only 3 per cent above the five year average referred to. Latest estimates are that the carryover next July will be more than 190 million bushels, as compared with a normal carryover of about 125 million bushels. If present favorable prices result in an equal planting of wheat for next year's crop, the combined production from average yields plus the carryover would give America one of the largest wheat surpluses in its history.

With this situation in mind, the AAA is advising winter wheat producers and other farmers who grow fall-sown crops, that the probable provision in the 1938 program will call for seeding of soil depleting crops of not to exceed 80 percent of the 1937 soil depleting base acreage. This suggestion is made at this time for the guidance of farmers who need this information before the full details of the 1938 program are announced. The outline of the program being developed in Washing-

ton, following the collection of recommendations from all parts of the country, is not yet completed.
