

LEADING COUNTY 4-H MEMBERS FETED

Ellwynne Edgar Peck, Lexington, and Awilda Bleakney, Boardman, photographed at the Pacific International Livestock Exposition which they attended as guests of The First National Bank of Portland. They went as outstanding 4-H Club boy and girl from Morrow county.

ELLWYNNE PECK TELLS EXPERIENCES ATTENDING P. I. AS BANK GUEST

By ELLWYNNE PECK

I would like to describe through the columns of your newspaper some of the experiences and observations I gained from my recent trip to the Pacific International Livestock exposition awarded me by the committee through the courtesy of The First National Bank of Portland.

I left Lexington at 7:30 on Monday morning, Oct. 4, with Mr. Morton, manager of Heppner Branch, First National Bank of Portland. We arrived in Portland at noon.

I registered at the Heathman hotel where I was assigned my room and also met Mr. Walter H. Brown, the bank's vice-president, Miss Bertha P. Singer and Miss Goodwin who were with us as our guides and advisers during the stay.

Miss Awilda Bleakney of Boardman, who likewise was a Morrow county delegate, had registered before our arrival.

Group pictures were taken at the Heathman hotel.

After registering we attended luncheon as guests of the Portland chamber of commerce. Mayor Carson welcomed us by leased wire from New York where he was attending a special meeting.

We were taken to the Pacific International exposition in two large gas busses which were our transportation while in Portland. After attending the 4-H club banquet at Penney hall at the exposition grounds, we went to the horse show. The horse show consisted of judging of three and five gaited horses, coach horse judging, bulldogging, riding of Brahma steers and bucking horses, and a demonstration of riding hurdles by Canadian cavalry and U. S. army teams. The United States team won with five falls to the Canadians' 15. This completed the schedule for the first day.

The next morning we had breakfast in the main dining room of the Heathman hotel after which we made a tour of the First National Bank of Portland. Group pictures were taken in the lobby of the bank. We were conducted through the bank by a guide who explained and showed us all the functions of the organization. A few of the features which interested me were the change computing machines, the safety deposit vaults, and the check endorsing department. The doors to all the vaults weigh about 14 tons each, containing three time locks. A code message could be sent to Europe and have the return message within six minutes through code machines operated by the bank. Many other features were equally interesting,

but space does not permit me to mention them farther.

We were then taken to the exposition grounds and attended luncheon at the Red Steer cafe. The afternoon was spent visiting the airport, grotto and Franz bakery. At Swan Island airport we were permitted to inspect the planes on the grounds with a guide who answered the questions asked. The grotto proved to be a beautiful place and in the future will have lawns and gardens along the paths. At the bakery we saw the bread-making process from the flour to the wrapped bread. It was very interesting thru-out.

Then we returned to the Heathman where we visited KOIN broadcasting station and where several club members were interviewed for their outstanding club work. Afterwards we attended a banquet in the Georgian room of the Heathman. We were then extended the privilege of either attending a theater or dancing party for the rest of the evening.

The following morning we again returned to the exposition where we witnessed the auctioning of 4-H club fat stock. The prize steer, weighing a little over a thousand pounds, sold for 36 cents a pound. The prize fat lamb of the show sold for \$1.25 a pound. The lamb weighed almost a hundred pounds. Exhibitions at the exposition were from all over the U. S. 4-H livestock was shown by clubs from Oregon, Washington, Idaho and Montana.

We finished our schedule with a special luncheon at Condon Chicken inn and returned to the Heathman, after which we journeyed home.

I wish personally to thank the sponsors of this trip and also the people of Morrow county who have supported 4-H club work.

SUFFERS BROKEN LEG

Leslie Rasmussen, head lineman for Pacific Power & Light company at Condon, suffered a broken leg bone near the ankle Tuesday morning when a rope on which he was pulling gave way, reports last week's Condon Globe-Times. He undertook to go ahead with his work but an x-ray by Dr. Gaunt revealed a broken bone and the leg was placed in a cast which will have to be worn for several weeks. Bob Mays of The Dalles is substituting for Mr. Rasmussen. Mr. Rasmussen was local lineman with P. P. & L. for many years before going to Condon recently.

Mrs. Hilma M. Anderson was a business visitor in the city Tuesday from the Eight Mile farm.

GRASS, ALFALFA MIX RESULTFUL

Local Soil Conservation Service Advises Method of Improving Permanent Hay Production

The value of seeding grass with alfalfa for permanent hay has been proven in the Heppner area, not only in reducing erosion, but also in improving the quality of the hay and quantity, according to technicians at the Soil Conservation Service camp at Heppner.

Noting that straight alfalfa seedings were not completely controlling erosion, service men assisted a number of farmers who were cooperating with the service to seed a mixture of grass and alfalfa. The first mixed seedings were put in on the W. H. Cleveland ranch on Willow creek and the John I. Hanna ranch on Hinton creek.

After seeing for themselves the results of the first two years both Cleveland and Hanna are emphatic in stating that practically all of their future seedings will contain grass as well as alfalfa. Not only is soil loss reduced to a minimum but hay tonnage is increased and the quality is superior for general use over straight alfalfa, is their report. Some ranchers have noted that their stock will eat the grass out of the hay even before they eat the alfalfa.

Smooth bromegrass and tall meadowgrass have given the best results of all grasses tried to date, as

far as this area is concerned, the service experts say. On land that can be irrigated, a mixture of the two grasses with alfalfa at the rate of eight pounds alfalfa, tall meadow oatgrass three pounds, and smooth bromegrass three pounds, gives the best results. Seed of both grasses is readily available and low in price. The cost of seeding an acre with the above mixture will usually run lower than seeding straight alfalfa in a larger amount, they explain.

The grass can be sown at the same time as alfalfa with an alfalfa seed attachment or a regular grain drill. Early spring seeding after danger of frost is past is believed the best in this area, according to the technicians.

HOME EC CLUB MEETS

Willows grange Home Economics club met at the home of Mrs. E. C. Heliker on Friday, Oct. 15, with a good attendance of members and several visitors. A pot-luck dinner was served at noon. Most of the day was spent in quilting. The ladies made plans for a program and bazaar for November 20. Refreshments were served at the close of the meeting. The November meeting will be held in lone to complete the bazaar plans.

YOUR EYES

Dr. Clarke, the Eye-Sight Specialist of Portland, will be in lone, Monday, Oct. 25th, at the Harris hotel, all day and evening. In Heppner Tuesday, Oct. 26th, at the Hotel Heppner. See him about your eyes.

Student Offers Cure For Migraine Aches

CORVALLIS—That the "water balance" in a person's body may be the key to prevention of migraine or nervous sick headache is the theory advanced by Frank Thompson, graduate student in chemistry at Oregon State college, who recently reported his experiments and conclusions on this subject to the Oregon section of the American Chemical society at its meeting in Portland.

When informed about eight years ago that this malady, from which he suffered frequently, and which, incidentally, afflicts from one to two per cent of the population, was incurable, Thompson began using his earlier scientific training in an effort to find out something about it for himself. His study of his own case and those of a number of others has finally convinced him that the secret of prevention of these headaches lies in keeping the intake of water or liquid at a minimum.

He recommends that persons subject to such headaches stay on the borderline of thirst at all times, and that if they feel an attack coming on, wrap themselves in blanket in the warmest possible spot and sweat it out.

Charles W. Smith, assistant state county agent leader, was calling at the local county agent's office Monday.

7 Big Publications

EACH FOR ONE YEAR--A TOTAL OF 124 ISSUES

Here's What You Get!

McCall's Magazine - 12 Issues
Pictorial Review - 12 Issues
Woman's World - 12 Issues
Good Stories - 12 Issues
The Country Home - 12 Issues
The Farm Journal - 12 Issues
Heppner Gazette Times 52 Issues

All Seven
For One Year

\$3.00

REGULAR VALUE \$5.25—YOU SAVE \$2.25

YOU WILL GET ALL SEVEN publications for ONE FULL YEAR, and if you are already a subscriber to ANY of these SEVEN publications, your present subscription will be extended one full year. Mail or bring the coupon below to our office AT ONCE, and you will receive THE SIX BIG MAGAZINES each month, and THIS NEWSPAPER each week: that's 72 magazines and 52 newspapers—124 issues in all for only \$3.00. ORDER AT ONCE because we may soon have to withdraw this offer, or advance the price.

USE THIS COUPON AND SAVE \$2.25

HEPPNER GAZETTE TIMES,
HEPPNER, OREGON

Date

Yes, indeed, I want to accept your magazine offer before it is withdrawn. Enclosed is \$3.00 in FULL PAYMENT for ONE YEAR'S subscription, new or renewal, to the following seven publications:

HEPPNER GAZETTE TIMES - 1 year
McCALL'S MAGAZINE - 1 year
PICTORIAL REVIEW - 1 year
WOMAN'S WORLD - 1 year
GOOD STORIES - 1 year
COUNTRY HOME - 1 year
THE FARM JOURNAL - 1 year
