*"We're just one big happy family now!"*

1. We really didn't have any family life. None of us kids stayed home nights unless we had studies to do. Dad took the only so-called reading lamp we had. Mother hovered around, mending or trying to read the paper when Dad finished with it.

2. We kids couldn't seem to do things together like other families. When we read, we got headaches or became restless or irritable. Mother made us give up games because they always ended in a row. That's why we stayed home so little.

3. Then Bud's sister, May, (Bud's my pal) started training to be a home lighting advisor. She practiced on their house, and say—this light conditioning stuff made a wonderful difference. I didn't know seeing could be so easy indoors.

4. Then I had an inspiration. I asked May to tell us what aired our house. Dad was afraid light conditioning would cost too much, but May assured him it wouldn't because Pacific Power & Light Company's electric rates are so low.

*All using this attractive I.E.S. lamp see without strain!*

Your eyes will get a thrill when you read or work by the light of this I.E.S. study and reading lamp. No strain—no fatigue—no tired feeling. That's because this lamp gives plentiful light, free from glare and properly diffused, to make seeing easier. The standard is beautifully designed, and a variety of lovely shades are offered.
