First State Corn Show Set for Nov. 29-Dec. 4

Premiums for Oregon's first statewide corn show, scheduled for Portland, November 29 to December 4, are divided equally between adult growers and 4-H corn club members. The two groups will compete against each other only for sweepstakes, however. Hundreds of entries in both groups have already been made, say those in charge.

The show is sponsored by the First National bank of Portland, with the cooperation of the agricultural committee of the Portland chamber of commerce and Oregon State college, and will be held at the Portland public market. J. J. Inskeep, Clackamas county agent, is chairman of the committee in charge, which is composed of representatives of the three agencies concerned.

In pointing out the importance of

the development of corn growing in Oregon, R. E. Fore, assistant agronomist at Oregon State college, and a member of the committee, said that while it is estimated that there were about 76,000 acres of field corn grown in Oregon this year, it would require 200,000 acres to supply the demand in this state alone. There is no question, he said, but that Oregon can and should raise a great deal more corn, as soon as varieties most adapted to conditions here have been definitely determined. Many farmers of the state are now cooperating with the Oregon extension service in carrying on demonstration trials of various varieties of corn.

Frank Fraters was transacting business in the city Tuesday from the Eight Mile farm, reporting growing conditions quite favorable for the season and the new wheat coming through the ground.

READY TO BRING YOU RELIEF IN MINUTES

THE REASON BAYER ASPIRIN WORKS SO FAST

Drop a Bayer Aspirin tablet into a tumbler of water. By the time it hits the bottom of the glass it is disintegrating. This speed of disintegration enables genuine BAYER Aspirin tablets to start "taking hold" of headache and similar pain a few minutes after taking.

YOU can pay as high as you want for remedies claimed to relieve the pain of Headache, Rheumatism, Neuritis, Sciatica, etc. But the medicine so many doctors generally approve — the one used by thousands of families daily — is Bayer Aspirin — 15¢ a dozen tablets — about 1¢ apiece.

Simply take 2 Bayer Aspirin tablets with a half glass of water. Repeat, if necessary, according to directions.

Usually this will ease such pain in a remarkably short time.

For quick relief from such pain which exhausts you and keeps you awake at night — ask for genuine Bayer Aspirin.
