**OSC Enrollment Up As Profs Work Hard**

Corvallis—Heavy enrollment of new and former students at the start of the winter term at OSC more than offset the number who were dropped because of inability to succeed in college work, so that total registration during the first week in January actually ran ahead of the comparable period in the record high fall term. By the end of the first week, 3933 students had enrolled, a 9 per cent increase over the previous year.

Indications were that the winter term might come near equalling the final fall term, which set an all-time record of 4068. Instructors, faced with bulging classrooms and heavy schedules, were reporting no trouble with the so-called "excess leisure problem."

**Canadian Wild Rye Excels**

Pendleton—Canadian wild rye grass produced a stand unexcelled by any other grass among the 1937 seedings in the Ukiah forage nursery, reports County Agent W. A. Holt. Beardless blue bunch wheatgrass also showed excellent stand and development when observed late this fall, and blue bunch wheatgrass also showed well, having made about half the growth of the beardless variety, Holt said. English rye grass made a better than average stand and was green quite late, considering the elevation. Other grasses making good showings were blue wild rye, meadow fescue, orchard grass and slender wheat. Of the older plantings, made about 1928, crested wheat grass continued to lead in general excellence, he said.
