Loan Applications Being Received

Applications for emergency crop and feed loans for 1938 are now being received at the county agent's office.

The loans will be made, as in the past, only to farmers who cannot obtain credit from any other source. The money loaned will be limited to the farmer's immediate and actual cash needs for growing his 1938 crops or for the purchase of feed for livestock, and the amount which may be loaned to any one farmer in 1938 may not exceed \$400.

Farmers who can obtain the funds they need from an individual, production credit association, bank, or other concern are not eligible for crop and feed loans from the Emergency Crop and Feed Loan Section of the Farm Credit administration. The loans will not be made to standard rehabilitation clients whose current needs are provided for by the Farm Security administration, formerly known as the Resettlement administration.

As in the past, farmers who obtain emergency crop and feed loans will give as security a first lien on the crop financed, or a first lien on the livestock to be fed if the money borrowed is to be used to produce or purchase feed for livestock.

Where loans are made to tenants, the landlords, or others having an interest in the crops financed or the livestock to be fed, are required to waive their claims in favor of a lien to the governor of the Farm Credit administration until the loan is repaid.

Checks in payment of approved loans will be mailed from the Regional Emergency Crop and Feed loan office at Spokane, Wash.
