Local Squad at Track Meet

The Mustang track team journeyed to Arlington last Saturday afternoon to take part in the district track meet held there. It was an invitational meet with the following schools participating: Condon, Goldendale Fossil, Ione, Lexington and Heppner.

Although the Heppner team was not a serious contender, it shows promise of developing into a fast team. The various individuals of the team made points in the following events: Bill Blake, third in mile; Art Vance, second in half-mile; Guy Moore, second in broad jump; Normal Osborn, tie for third in high jump.

Mustangs to Meet Bulldogs Friday

The Heppner baseball nine will journey to Hermiston this coming Friday for their third baseball game of the season. To date Heppner has lost one game to Arlington, 10-7, and won one game from Condon, 6-5.

Hermiston thus far has defeated Athena, 1-0.

PINTO-POINTS

Last fall this writer happened to overhear a sports conversation between several lower classmen . . . the students indulged in the discourse varied their topics considerably, jumping around from one to another, but the subject of specific interest was the baseball team for the then-coming spring, which happens to be the present time . . . one of the discussionists, an athlete of fairly high calibre and a sophomore in school, stated, "I bet I make the team." Another interested on-looker, a frosh sports enthusiast, took the fellow up on his statement, voicing a contrary opinion . . . there were two or three other fellows also willing to wager that he wouldn't make the team . . . both parties involved in the slight personal argument have probably forgotten about it, but just as a reminder to the one who didn't think his fellow student would gain a position on the school ball club, the confident party of the second part did make the squad, as he said he would . . . in fact, he's doing quite well by himself, getting one hit in the Condon game and making two runs . . . his confidence proved encouraging, as he didn't even turn out for baseball last year.

Quite a bit was said about Arlington's taking the track meet at that city last Saturday; however, that was expected. Considerable comment was roused by Heppner's taking fourth, beating Ione by half a point, but little was put forth concerning the second-place track squad, that of Lexington, our neighboring school with a masculine enrollment hovering around the dozen mark . . . not only did the Jack-rabbits take 18 points for a second to Arlington's 52, but they rightfully make claim to the meet's high score man, Ellwynne Peck, with 13 points. He took two firsts and a second . . . the little school seldom re-

ceives due credit . . . that's why this section of the column is devoted to that proposition.

Robert Knox, local coach, instigated one of the most constructive physical education ideas found in this school to date when he took foot-prints of the boys in high school . . . merely taking prints of boys' feet is nothing so breath-taking, but his plan for correction of defects is the best part about it . . . the foot-prints of 60 boys were taken and out of this number, 18 were found to need attention . . . 8 of them definitely had flat feet; while the remaining 10, although not so bad, were not in any too good a shape . . . starting within the next week Mr. Knox will have worked out some corrective exercises for those needing them . . . after getting them started, they can be carried on personally without supervision . . . this is entirely up to the individual, but those who care to, will take daily exercises for three weeks . . . reprints will then be taken to see how much advancement has been made in that time towards the needed correction . . . the foot faults cannot be completely cleared up in the three-week period, but a good start can be made . . . after that time, necessary additional exercises can be pushed forward by those desiring them.

Humor

Milton M.: "Doctor, I'm just scared to death. This will be my first operation."

Doctor: "Sure, I know how you feel. You're my first patient."

Policeman: "How did the accident happen?"

Motorist: "My wife fell asleep in the back seat."

"Pa," said Johnny, looking up from his composition, "is water-works all one word, or do you spell it with a hydrant in the middle?"

Kit: "Well, anyway, dear, we must give Jack credit for getting her a nice Christmas present."

Kat: "Oh, no we needn't—the jewelers have given him credit for that."

"That Jones boy who used to work for you wants me to give him a job. Is he steady?"

"Well, if he were any steadier, he would be motionless."

Edna Stevens: "If I'm studying when you come in, wake me up."

Art McAtee: "Say, this darned car won't climb a hill! You said it was a fine machine."

Dealer: "I said: 'On the level its a fine machine'."

Can you imagine Mr. Blankenship going without his dinner so he could get his hair cut?

What We Think of Palooka Shirts—

Bill Barratt: "I think they are screwy."

Ruth Green: "They suit some of the students who wear them."

Jack Healy: "They're all right, if you tuck the bottom in."

Frances McCarty: "I think they are nice."

Joe Aiken: "I like them! I have three."

Bethal Blake: "Too loud."

Paul McCarty: "They're all right."

Maxine McCurdy: "I think they are cute."

Attention, Drivers!

During fifteen years of war there were 244,357 U. S. citizens killed. During fifteen years of driving there were 441,912 people killed in the United States.

These facts were taken from the pamphlet, "Death Begins at 40," and are startling but true. All this death is due to someone who doesn't think or someone who doesn't care—in other words, CARELESSNESS tops the list as the cause of accidents.

Remember—at a rate of 40 miles per hour there is one chance in 44 that someone will be killed. At a rate of 50 miles per hour there is one chance in 19 that someone will be killed. Death Begins at 40!
