

Labor Control Act To be on Ballot

Salem, July 5—Regulation of picketing and boycotting by labor groups, and protection to agriculture in the harvesting, processing and marketing of farm products are sought in a farm-sponsored measure which will go on the general election ballot next November.

This was assured today when initiative petitions bearing approximately 28,000 signatures were filed with Secretary of State Earl Snell by Howard L. Shoemaker of Hood River, president of the Associated Farmers of Oregon.

In addition to the Associated Farmers, other sponsors and supporters of the initiative include the Eastern Oregon Wheat league, the Oregon Farm Bureau and prominent farm leaders and Grangers in every section of the state.

"Ever since the disastrous waterfront strike of 1934, Oregon agriculture has suffered losses aggregating many hundreds of thousands of dollars," Shoemaker pointed out. "We have been helpless victims in labor's own quarrels and we are determined to protect not only ourselves but the public and the working people from these unfair labor practices."

Mr. Shoemaker indicated that the farm groups will unite in mapping out and carrying on a campaign, the culmination of which he believes will put Oregon in the forefront in solving the present national labor debacle.

"All we ask is a calm and thoughtful study of our proposed law," he said. "We are not opposed to organized labor as such. We know that adoption of this law will strengthen legitimate labor unions and will bring to Oregon an era of much needed industrial peace and prosperity."

Umatilla Included In Closed Areas

Governor Martin, acting under authority of state law, has just announced the closing of certain forest areas in Oregon, because of conditions tending to allow the rapid spread of fires, such as debris on the ground, wind-thrown timber, standing snags, and inaccessible character.

His proclamations include areas adjacent to the Deschutes, Fremont, Mount Hood, Ochoco, Rogue River, Siskiyou, Umpqua, Whitman, Willamette, and Umatilla National forests.

Under this closure order, all entrants are required to comply with all of the following requirements or conditions: 1. To refrain from smoking while traveling in such areas, except on paved or surfaced highways; 2. To secure a permit issued by the forester or a fire warden before building a camp fire other than at improved, designated, and posted camp grounds on such areas, and; 3. To have as a part of his equipment when using camp fires, except when traveling as a pedestrian or camping at improved, designated, and posted camp grounds, tools as specified by the forester suitable for extinguishing fires.

Four additional proclamations govern the use of certain specified areas having high fire hazard caused by an excessive amount of inflammable debris resulting from logging operations or wind-thrown timber or standing snags.

These include closure to unregulated use of four areas, of which two are in or adjacent to the Siskiyou National forest; one, the Mt. Hood National forest; and one, the Umatilla National forest; and the closure to all use for three additional areas in the Mt. Hood National forest.

These closure orders, according to the proclamation, are effective from July 1 to December 31.

Party Enjoys Trip To Yellowstone

Mr. and Mrs. Jas. Burnside, Ray Thomas and Mrs. Margaret Swift returned recently from a motor trip on which they visited Yellowstone national park. They covered two thousand miles in all and report an enjoyable time, without mishap.

Leaving Heppner Sunday, June 9, they drove to Grand Coulee dam the first day and viewed the marvelous

structure that will be 500 feet wide at the bottom, 500 feet high and 30 feet wide at the top, and approximately a half mile long. From there they drove to Dixon, Mont., via Spokane, and spent a day there visiting Mr. and Mrs. Ward, brother-in-law and sister of Mrs. Burnside and Mrs. Swift and former Morrow county residents. Leaving Dixon the fifth morning they headed for Yellowstone through Missoula, Helena, Bozeman and Gardner where they spent the night. They entered the park the next morning and viewed wonderful sights of the park for the next day and a half. Seen was Old Faithful which erupts every hour throwing a stream of boiling water 150 feet high for a period of two to five minutes. A stop at Yellowstone lake and Jim caught three beautiful trout. On to Grand Canyon where the upper and lower falls were viewed, the upper fall being 109 feet and the lower 750 feet. The canyon is 1500 feet wide at this point.
