Miss Scharf Engaged To Erling Thompsen

By KATHERINE GRIFFITH

Mr. and Mrs. W. H. Scharf announced the engagement of their daughter, Katherine, to Erling Thompsen, son of Mrs. Nicoli Thompsen of McMinnville, at a dinner at their home in Salem, March 18. Mrs. Scharf is the primary teacher in the local school.

Mr. and Mrs. Hugh Smith, Mr. and Mrs. Victor Rietmann, Mr. and Mrs. Werner Rietmann, Robert Smith, Miss Bonita Smith, of Ione, and Mr. and Mrs. Earl Blake and family of Heppner motored to Kinzua Saturday afternoon and spent Sunday with Mr. Smith's daughter, Mrs. Dan O'Hara.

Mr. and Mrs. Norman Everson of Hood River were Sunday visitors in Ione.

Mr. and Mrs. Herschal Hensley who have been living in the old Oscar Cochran house, are moving to Hermiston.

Mr. and Mrs. Erret Hummel, accompanied by Richard Gronquist and Mrs. C. F. Trimble, motored to Portland last Friday afternoon. Mrs. Trimble went on to Multnomah to visit her daughters for a while.

The combined glee clubs of the high school will present a free musical entitled "Melody Cruises" to the public on Thursday evening, March 23.

Mr. and Mrs. Milton Morgan, Jr., moved out of the H. O. Ely house on Second street to their farm in the country. Mr. and Mrs. Ted Blake have moved into the vacant house.

Miss Barbara Wagner departed Monday for the Terrel Bengel ranch on Rhea creek, where she has employment.

Mr. and Mrs. Rood Ekleberry and family have moved to Morgan from a ranch below Cecil where they have been living for some time.

The following grade school boys with their coach, Richard Gronquist, attended the basketball tournament at Arlington Thursday: Donald Peterson, Pete Cannon, Robert Hoskins, Jimmie Barnett, Delmer Crawford, Arthur Stefani, George Renoe, Glen Warfield, Ernest McCabe, John Ledbetter and Robert Rietmann. The boys played Stanfield and were defeated, 25-11.

Alexander McDonald arrived in Ione Thursday and departed Saturday after a visit with old friends here. He is a former teacher in Ione high school and is now attending University of Oregon to get his master's degree. Soon he will go to Bellingham to join the baseball team for spring training. Mr. McDonald was with this same team last year.

Thomas Alfred Tripp of the Country and Town department of the Congregational church will speak at the Christian church Sunday morning, March 26. He is one of the younger secretaries of the denomination who has already won respect and esteem for his leadership.

Clifford Yarnell returned to his studies Saturday after spending the spring vacation with his parents, Mr. and Mrs. Harry Yarnell.

Miss Katherine Scharf spent the week end in Salem. On her return her mother, Mrs. W. H. Scharf, accompanied her for a visit here.

Mr. and Mrs. George Miller and little son Paul and Mrs. Sena Miller left Saturday for Vancouver to visit relatives.

Dr. Charles Chick, Miss A. Myers and Miss Blanche Bristow of Hood River were in one for a short visit Tuesday afternoon.

Mr. and Mrs. Everett Keithley and family departed Friday morning for their home in Baker. They were called here by the serious illness and death of Mr. Keithley's father, Oscar Keithley.

The Women's auxiliary gave a silver tea and apron sale in their rooms Friday afternoon. The affair was a success and they sold all of their work.

Bert Mason, Jr., and his friend, who have been visiting Mr. and Mrs. Bert Mason, left with Robert Davidson Sunday morning for Corvallis where all three boys will resume their work at Oregon State college.

Harlan Devin drove over from Condon Tuesday and was accompanied home that afternoon by his mother, Mrs. Sylvia Devin, who went for a visit at the son's home.

Salmon Industry Has Good Future If Markets Held

The Pacific northwest salmon canning industry, one of the oldest industries in the region, has opportunity for substantial development, particularly in the field of better marketing, according to conclusions reached in a report just published at the third in a series of Oregon State college monographs. The 118-page publication entitled, "The Salmon Canning Industry," is by Dr. Daniel B. DeLoach, associate professor of business administration and economics at OSC.

"The fisheries are one of Oregon's most important natural resources, with an annual value conservatively estimated at approximately 10 million dollars, of which fully three-fourths is contributed by the salmon industry," Dr. DeLoach points out. "The problem of obtaining the fullest use of this natural resource and at the same time conserving similar benefits for posterity, is now one of the major problems facing the state."

"Little attention has been given thus far to an economic survey of the Oregon fishing industry. The information acquired from such a study would be of material aid in developing a policy of conservation and in marketing Oregon's fishery products on a nation-wide scale. The present monograph, though it relates to the salmon industry in a wider area, contributed in a measure to the goal desired."

Promotion of the high nutrient value of canned salmon is one possibility pointed to for improving the market outlet. The report shows that salmon contains sufficient amounts of vitamins A and D to correct certain dietary deficiencies. While diet-

icians do not claim that fish consumed as a food can replace such standard dietary correctives as cod liver oil, it is significant that home economists are stressing the value of salmon and other species of fish for the vitamin content, particularly in the diet of the growing child, the report reveals.

Salmon exceeds round stake in protein content exceeds whole milk in calcium content, and has more phosphorus than either beef or eggs.

The work of preparing the original manuscript of this study was completed at the University of California in connection with Dr. DeLoach's graduate study.

Plans for Feed Mixers, Farm Houses Available

Plans for a cone type feed mixer and for two farm residences are now available from the agricultural engineering department at Oregon State college. The feed mixer has 1000 pounds capacity, and is modeled after a successful installation on the C. F. Pelland farm, St. Paul, Ore.

Both farmhouse plans are for six-room structures, one being designed to face west and the other south. Both are planned for Pacific northwest conditions. The feed mixer plans may be had free, while charges for the house plans are only about \$1 each to cover blueprint costs.

Sam J. Dalton, commissioner of motor vehicles for the state of Mississippi, recently wrote to secretary of State Earl Snell complimenting the Oregon safety division on the publication of its revised edition of the safety booklet, "Are Young Drivers Good Drivers?" which was released about the first of the year. Many other expressions of interest have reached Snell from recipients of the book.

F. H. Gray, manager Copeland Lumber yards with headquarters at Portland, arrived in the city Satur-

day and visited over Sunday while transacting business. He was a guest at the home of Mr. and Mrs. T. Babb.
