On Monday of last week Carey Hastings left to join the sheep shearing crew in Montana. Hastings and daughters went as far as the Corrigal ranch near Echo, where they will remain for some time. Mrs. Corrigal had an operation

Garlic-Parsley an Aid in

Medical reports say that Garlie-Parsley concentrate has a double action in reducing high blood pressure. First, it tends to relax tightened arteries. Second, it checks or inhibits decomposition of waste matter in the bowels, a contributory cause of high blood pressure. To get concentrated garlie and parsley in odorless, tasteless form, ask for ALLIMIN. These tablets, used at regular intervals, aid in reducing blood pressure and relieving headache and dizziness caused by excessively high readings. To learn what raises your blood pressure and for medical treatment consult your doctor. ALLIMIN is for sale by all druggists.

Mr. and Mrs. Emory Moore of Heppner visited at the home of with friends in Lone Rock Saturday. Mr. and Mrs. Owen Leathers on

At long last we have had a fairly good rain which was much needed as the forests are very dry, and with him, as well as Les Robin- also the farmers were beginning to worry. It has been so cold on most a coyote pup and all were not nights that there has been ice some On every day there has been some sunshine, and on the whole the

several weeks ago and although she weather has been most pleasant. is improving she is not able to do There was one very brief thunder to 10 per cent under last year. A

NEW BARLEY BEING TRIED

LA GRANDE-A new winter hardy barley believed to be resistant to foot rot is being tried this year by several Union county farmers who were supplied seed by Dr. Roderick Sprague, federal pathologist stationed at Oregon State college. Olympic barley is the name of the new variety and it is being tried on the farms of Henry Parsons, Elgin; Jim McKinnis, J. A. Garkill and H. H. Huron, Imbler, and Claud Woodell, La Grande. County Agent Avery reports the plantings came through the winter in good shape.

WEED CONTROL EFFECTIVE

MORO - A concentrated weed control program carried out on the Henry Howell ranch is apparently giving good results. After using liquid chemicals applied with pressure pumps for several years, Howell last fall filled boxes of his grain drills with dry sodium chlorate and spread the chemical on morning glory infested land. The results were apparently successful. Howell has been able to use chemically treated land again the third year after chemical application, with yields being nearly as good as on adjoining untreated land.

KLAMATH FALLS-Slight decrease in potato acreage in this county is expected this year with

estimates running from 3 per cent total of more than 8000 cars were shipped this past season with final marketings early in May. A more balanced farming program with potatoes in rotation is being advocated by County Agent C. A. Hender-

THE RECORD Facts That Concern You

No. 8 of a series.

623,483.67 TO THE RESCUE

AND that's just the beer tax revenue this state itself collects . . . to lift the burden of direct taxation from your shoulders. Nationwide, beer contributes over a million dollars a day to the cost of government. Think what that means in paying for relief, in public works, in old age assistance right in your own community.

Then think of the million new jobs that beer made. And then add to that a 100 million dollar market for farmers' crops!

How can we keep these benefits . . . for you and for us? Brewers of America realize this depends on keeping beer retailing as wholesome as beer itself. They want to help public officials in every possible way. They cannot enforce laws. But they can—and will—cooperate!

May we send you a booklet telling of their unusual self-regulation program? Address: United Brewers Industrial Foundation, 19 East 40th Street, New York, N. Y.
