**RANGE USERS TO ELECT**

Washington, D. C., Sept. 27—Changes in the federal grazing code are to be put into effect in the method of selecting advisory boards in every grazing district in Oregon and nine other states. The advisory boards may not consist of less than five nor more than 12, exclusive of a wildlife representative who will be appointed by the secretary of the interior. Voting in the elections (to be held before November 1) is limited to those qualified to receive regular free-use or non-use licenses or permits. The electors will be those stockmen who, prior to the establishment of the grazing district, were regularly accustomed to using the federal range within that district.

**Morrow Teachers to Baker October 16-17**

Teachers' institute for Morrow county this year will mean a jaunt to Baker for every teacher in Morrow county holding a contract, said Mrs. Lucy E. Rodgers, superintendent, in announcing participation by this county in the regional conference to be held in Baker October 16 and 17. With six other counties, Morrow county has joined this regional institute in lieu of holding an institute at home.

Wallowa, Union, Baker, Umatilla, Grant and Malheur counties are the other counties participating, making an anticipated attendance of 900 teachers. Among principal speakers on the program are Dr. Kefauver of Stanford university; Miss Helen Heffernan, state supervisor of elementary education for California, and Dr. George Dangerfield, English author. The conference will also act as a regional meeting of Oregon State Teachers association.

**WHAT'S YOUR ANSWER?**  
What do YOU know about Better Light for Better Sight? Check the answers you think are correct and compare them with the ones that are right. No prizes but lots of fun! Try it on your friends.

**LIGHT CONDITIONING IS:**

1. A new way to take off excess weight.
2. Enough light in enough places for comfort and easy seeing.
3. Hindu breathing exercise.

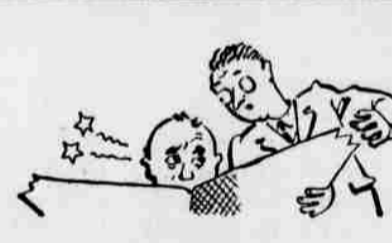

The greatest injustice you can do your eyes is to strain them continually by trying to read or do close visual work under poor or glaring light. Given plenty of good light . . . eyes will respond miraculously. *No. 2 is correct.*

**EYESTRAIN MAY BE CAUSED BY:**

1. Reading over someone's shoulder.
2. Inadequate or harsh, glaring light.
3. Meeting your mother-in-law unexpectedly.

A number of factors contribute to eyestrain. One of the most important—and most easily corrected—is the lighting in your home. Make sure you have plentiful, glare-free light wherever close visual work is done. If you want the advice of one of our home lighting advisors, call today. Her services are free. *No. 2 is the right answer.*

**BETTER LIGHT COSTS:**

1. As little or as much as you wish.
2. The same as a trip to the North Pole.
3. \$159.30.

There's no reason why you can't enjoy really good light every single day! Pacific Power & Light Company rates are the lowest they've ever been. Good lighting equipment also costs less than ever before. *No. 1 is correct.*

**I. E. S. LAMPS ARE:**

1. Necessary equipment for snipe hunting.
2. "Come Hither" eyes.
3. Scientifically-designed Better-Sight lamps.

I. E. S. lamps provide soft, abundant, scientific light that enables every member of your family to see better and more easily. They also add beauty to any room. Take a tip. See the attractive displays at your dealer's or P. P. & L. office now. *No. 3 is the correct answer.*
