We Back Our Line of  
**HEATERS**  
to the Limit

Experience has taught us that  
no one heater embraces all  
the features to make it THE  
heater for every home. To  
meet the requirements of our  
patrons we have at present  
three high-type heaters:

### DUO-THERM

The heater that drives the heat  
down where you need it.

### COLEMAN Oil Heaters

A practical heater for any home  
and recommended especially for  
rural homes.

### KRESKY Oil Burners

For range or heater . . . low oper-  
ating cost for forced circulation  
. . . one fan provides air-circulator  
and auxiliary air to the patented  
Kresky Burner.
