Why the Changes in Our School Curriculums?

What shall we teach which will make every child self supporting, leisure utilizing and democracy loving whether he is rich or poor, bright or dull?

Every child needs the basic three "r's," reading, writing and arithmetic. In addition they need a great deal more if they are to make satisfactory adjustments to an increasingly complex world around them. A number of basic skills, knowledge, attitudes and appreciations seem to be absolute necessities in our life today. The parents and the educators must of necessity be intensely interested in what these essential attitudes, appreciations, knowledges, skills and attitudes are as well as how they can best be taught if each individual child is to get the most from his schooling.

A great deal of research and study both on the part of educators and interested laymen has and is resulting in many changes from the traditional school as experienced by the average parent when he was in school.

On the average we find that about 80 percent of our high school graduates do not go on to higher institutions of learning. This points out the need of recognizing the high school as the terminal point in their formal schooling. Noticeable results are indicated by the swing of emphasis away from the traditional college preparatory courses for a large percentage of students toward preparation for living now.

Traditional subject matter fields are being reexamined in the light of present day needs and "dead wood" is being eliminated. Some entirely new courses are being added and some older courses are being eliminated. However, the transition must be slow and careful if we are to retain all of the good of the old curriculum and gradually add the new materials that are proved to be essential.

We must all, parents, teachers and pupils willingly and conscientiously accept the newer courses in order that we keep our schools abreast of the changes necessary to meet the problems of individual differences and a changing economic set-up. It seems to be the educators job to explain why these changes must take place so that we can all understand and appreciate them. As life becomes more complex the part played by education must become more and more important if the youth is to be prepared to take his place in the world.

The STAR REPORTER

There is entertainment for every member of the family in the double bill program scheduled for Friday and Saturday. For the men there are **Richard Arlen** and **Andy Devine** in the Alaskan air drama **LEGION OF LOST FLYERS**, for the women (in fact, we believe this is fun for everyone) **THE HONEYMOON'S OVER** tells the story of a newly married pair who buy a car, thus getting started along a bumpy marital road, and, for the youngsters, the cartoon **EDGAR RUNS AGAIN**—and it isn't for President!

Sunday and Monday are red-letter days for movie-goers! We have the amazing story of **Jefferson Smith**, a simple, homespun boy catapulted into a position of great power... a story of every-day Americans, carved out of their lives by the magic of **Frank Capra** (who gave us "It Happened One Night," "Mr. Deeds Goes to Town," "Lost Horizon," "You Can't Take It With You") and blended into his greatest entertainment achievement

Mr. Smith Goes to Washington

with **Jean Arthur, James Stewart, Claude Rains, Edward Arnold, Guy Kibbee, Thomas Mitchell**

The short subjects are a Color Rhapsody of a little boy and his dog who find a novel way to go ice-skating; and **Movietone News** bringing war news from all fronts, skiing, **Lew Lehr**.

You will be surprised when you see the new **CISCO KID AND THE LADY** for **Cesar Romero** makes his debut as the Kid in place of **Warner Baxter** who played the part for so long, and a "right smart job" he does, too. He is supported by **Marjorie Weaver, Robert Barratt, Virginia Field** and little **Gloria Ann White** who is a heart-winner. The outdoor photography is particularly fine. Also on the program are a laugh-riot from **Lew Lehr** and for sports fans "**Top-notch Tennis**."

Tuesday, of course, is **Pal Night**—2 adults 35c, 2 children 10c.

GREEN HELL which will be shown Wednesday and Thursday, Feb. 7th and 8th, is a swiftly-paced romance set in the strangest, most dangerous country on earth—the South American jungles. In the cast are **Douglas Fairbanks Jr., George Bancroft, Joan Bennett, Alan Hale, John Howard, George Sanders**. There is a musical short, and **News of the Day** covering the **Browder** conviction, **Murphy** and **Jackson** at the White House, a nation mourning **Wm. Borah's** death, styles, sports and war.

Mr. and Mrs. **Fred Parrish, Raymond** and **Jack**, are invited to present this coupon at the boxoffice for complimentary admissions. To be used before February 9th.
