RESOLUTIONS OF RESPECT

In memory of Brother George H. Hayden, who died March 17, 1940.

Once again death hath summoned a Brother Odd Fellow, and the golden gateway of the Eternal City has opened to welcome him to his home. He has completed his work in the ministering to the wants of the afflicted, in shedding light into darkened souls and in bringing joy into the places of misery, and as his reward has received the plaudit "well done" from the Supreme Master.

And whereas, the all-wise and merciful Master of the Universe has called our beloved, respected Brother home, and he having been a true and faithful member of our beloved Order, therefore be it

Resolved, that Mistletoe Rebekah lodge No. 25, I. O. O. F. of Hardman, in testimony of her loss, drape its charter in mourning for 30 days and that we tender to the family of our deceased brother our sincere condolence in their deep affliction and that a copy of these resolutions

MY FAVORITE MUTTON RECIPE

Roast Leg of Mutton
Trim and remove cut. Chop two small cloves of garlic real fine and mix well with two teaspoons salt and 1/4 teaspoon pepper. Make 3 small incisions in leg of mutton and stuff a little of garlic mixture in each incision. Seal incisions with

a crumb of bread. Rub remainder of garlic mixture over surface of meat, using more salt if necessary.

Start roast at 500 degrees, continue at same temperature for 20 minutes, then reduce heat to 300 degrees for remainder of time, allowing 30 minutes to the pound. When done pour off and make gravy from juice.

T. J. Humphreys was a Pendleton visitor Sunday.

2. AND IT PAYS TAXES

"Best of all, this power industry carries a big share of our tax load... it paid nearly \$900,000 last year. In one county here its taxes would run all the schools, in another it pays enough taxes to maintain half the county roads.

3. EMPLOYS 818 PEOPLE

"The power company payroll is one of the steadiest in the country. The company pays good wages and gives its employees a square deal. Why, some of our most active and useful citizens work for Pacific Power & Light Company.

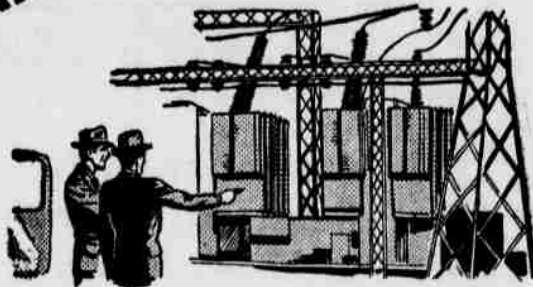

4. FURNISHES CHEAP POWER

"Like every other successful American industry, the power company is constantly reducing the price of its product as it develops new markets and improved methods. Today the average kilowatt-hour used in our homes costs only half what it did 14 years ago, and service is a lot better, too.

"We need more of these progressive and self-supporting industries like Pacific Power & Light Company to build up our great Northwest."

THIS EXPLAINS IT!

1. SEE THAT SUBSTATION?

"Well, those transformers and the power lines on our streets cost more than any building in town. For Pacific Power & Light Company is one of the very largest investors in this territory. In fact the company has put \$46,000,000 of capital into the development of the Pacific Northwest.
