

## Weed Control Steps Now Are Essential

Steps should be taken by all farmers at the present time to prevent any noxious weeds which they may have from going to seed, according to C. D. Conrad, county agent.

Conrad says that many patches of white top and knapweed are showing up in the county this month as the weeds are now blooming and will soon be seeding.

Unless the clean cultivation method is to be followed in controlling these weeds, they should be cut and burned as soon as possible and treated with sodium chlorate or carbon bisulphide when the fall rains start.

By deep plowing right away and regular cultivations every two weeks, the weeds can be controlled and eradicated in the course of two or three years. Conrad says this plan has been followed in Malheur county and good results have been obtained on a large scale. Umatilla county is starting on such a control program at the present time and there are many fields of noxious weeds in Morrow county which can be eradicated by this method more cheaply than by the use of chemicals.

Carl F. Bergstrom, "Skeet" Bergstrom and Cleo Drake fished on Alder and Skookum creeks Sunday. All made limit catches and Carl landed a 22-inch red side trout just to show his prowess as a fisherman.

## PINE CITY NEWS
