Health Contest Entries Selected

By HARDMAN HIGH SCHOOL
When Miss Lucille Vale was out last week she went over the records of the Blue Mountain Health club, consisting of all grade school pupils of 9 years or older, and selected the healthiest boy and the healthiest girl. These will go to Heppner on Saturday, August 17, where they will be carefully examined, and the healthiest boy and the healthiest girl of the county will be sent to the state fair at Salem. Since some members are out of town, second choices were made who will act as alternates. In the case of the girls, a third selection was made. Those named in order given, were: girls, Evelyn McFerrin, Alberta McFerrin, Yvonne Hastings; boys, Junior Leathers and Norvin Adams. We hope that Evelyn and Junior rate well.

On Tuesday evening Mr. and Mrs. Max Buschke and children came in from the Tamarack station for a short visit, but mostly to get supplies.

On Sunday of last week Mr. and Mrs. Carey Hastings and daughters, and Mr. and Mrs. Carl Leathers and Jean spent the day at the home of Mr. and Mrs. Darrel Farrens in the mountains. Jean remained to spend the week.

Mr. and Mrs. Earl Redding and children came home on Thursday and remained over Sunday. Earl is working in the mill near Pilot Rock, and the lay-off was needed for effecting repairs at the mill.

Mr. and Mrs. Kinard McDaniel moved out to Reed's mill over the past week end. They will live in the house formerly occupied by Mr. and Mrs. Raymond Reid.

On Friday Claude Buschke who trucks logs to the mill from Greener's logging grounds, went to Portland for repairs.

Mrs. Carey Hastings and daughters and Mrs. Carl Leathers spent last Friday at the mill as the guests of Mrs. Sam McDaniel, Jr., and others.

Recently the Misses Lucille and Jean Reed went to Spokane to get their sister Dorothy who is employed there. Then the three, accompanied by Mrs. Reed, went to Seaside.

The Misses Juanita Byers and Vera McDaniel who attended the Bible school at Lostine last week, are remaining away for another week. Juanita is the guest of her grandmother in La Grande, and Vera at the home of her aunt, Mrs. Harlan Weeks of Enterprise.

Little Miss Louise Schunk of Heppner, who has been the guest of her aunt, Mrs. Cecil Lutkins, during the summer, celebrated her tenth birthday on August 8. There was a party complete with cake and games and her guests were Kathleen and Dorothy Matteson and Virginia Pettyjohn.

On Wednesday of last week August Schunk came out from Heppner with Mr. and Mrs. Austin Devin and spent a couple of days at the home of his daughter, Mrs. Dewey Britt, at the mill.

CATTLE DISEASE REOCCURS

The state department of agriculture's division of animal husbandry reported a new case of anaplasmosis or yellow cattle disease from southern Malheur county, this being the second case this year and both from Malheur. Complete disposal of all susceptible animals was recommended.

New developments reported from California which show that the yellow cattle disease is carried by deer of certain sections there led the department veterinarians to point out that after fattening it would be impractical to attempt eradication or control of the malady.

The department advises owners to brand for identification each animal that shows symptoms of the disease (a yellowish discoloration of the skin coupled with loss of condition) and to fatten and slaughter them. Extreme care in handling all instruments used will be helpful in preventing spread of the disease.

Erb Urges Students to Return to College

Young men of university and college age living in and near Heppner, especially those who have not yet reached their 21st birthdays, should not hesitate to go on with their education this fall, it was declared recently by Dr. Donald M. Erb, president of the University of Oregon.

Reports have been reaching Dr. Erb that many students and others who are prepared to enter institutions of higher education are undecided what to do this fall, due to the military situation of the United States. Some are considering joining a military or naval unit, while others are awaiting definite congressional action on conscription acts.

"Young men who have the interests of the country at heart should investigate the possibilities of colleges and universities," Dr. Erb stated. "While we have no assurance that students will be exempt from conscription, it is possible to gain a considerable knowledge of military fundamentals from R. O. T. C. courses, while others will have the opportunity of learning how to fly through the facilities of the Civil Aeronautics Authority."

"Even though their studies may be interrupted later by voluntary or conscript service in the army, the students will be able to return and pick up where they left off when their military service is over."

The military training given R. O. T. C. units prepares students to be officers, a field in which they can be of utmost service, President Erb pointed out. Those who have only a year or two before completing college or university should especially keep this in mind.

Registration at the university and at Oregon State college, state owned institutions where R. O. T. C. units are being maintained, will take place September 27 and 28, with classes scheduled for September 30. For entering students, "Freshman week" will precede registration.

STILL BEST FERTILIZER

Lakeview—The use of sulfur on alfalfa, long a standard practice in eastern Oregon, is still giving better results than any other fertilizer treatment on Lake county soils, reports Vic Johnson, county agricultural agent. On the J. D. Corum farm at Silver Lake, alfalfa yields were increased 210 per cent by the use of 100 pounds of sulfur per acre, in comparison with untreated plots. Gypsum, or land-plaster, applied at the rate of 250 pounds per acre, increased the yield 149 per cent, while superphosphates applied at the same rate increased the first cutting 147 per cent.
