Parity Payments To be About Same

Parity payments may be earned in 1941 by wheat growers under essentially the same provisions that have been in effect this year, announces Will Steen, chairman of the state AAA committee in Oregon. Payments will be made to eligible producers from a fund of \$212,000,000 appropriated for this purpose.

Payments will be made on the normal yield of the farm acreage allotment at rates which will bring the total price as nearly equal to parity as funds will permit. In 1939 and 1940 the rate of payment combined with the average farm price could not exceed 75 per cent of par-

Payments are limited to participants in the 1941 AAA program. Any such participant is eligible if (1) his 1941 planted acreage does not exceed his allotment, and (2) if he does not offset his performance by overplanting wheat on any other farm in which he has an interest.

IS NEW MINT OIL CENTER

St. Helens-Columbia county is now one of the largest mint oil producing areas in the United States with over 1000 acres planted to peppermint, reports G. A. Nelson, county agricultural agent. This area produces a crop of peppermint oil worth about \$100,000 annually. The growers recently took preliminary steps to form a cooperative organization to market the crop. The chief producing areas are in the Rainier and Claskanie districts.
