Wedding Surprise to Hardman Folk

By ELSA M. LEATHERS

A surprising event of this week was the wedding of Ethel McDaniel and Les Robinson at Weiser, Ida., Nov. 18. While the couple were gone they visited at the home of Mr. Robinson's brother Athur, of Pondosa. On Thursday evening a very large crowd gathered at the garage and then went to the home and gave them a very good old-fashioned charivari. The crowd all went to the hall and danced. Very nice treats were passed to all. A number of people came from Heppner, Reed's Mill and a host from the country. The entire community extends the very best wishes to them.

Mr. and Mrs. Claude Buschke visited Monday at the Walter Becket home at Eight Mile. Bobbie and Jerry visited overnight with Owen Leathers, Jr.

Speaking of pioneers, Hardman can do very well, too. Ed Morland came to Morrow county in March of 1880 with his parents and settled on what is known as the old Morland place near Herman Neilsen's place. Mr. Morland's people left here in 1907 and went to the Valley to live. He has spent some of the time there.

Clarabel Adams came home Wednesday from O.S.C. where she has been attending school, to spend Thanksgiving with her parents. Mr. and Mrs. Floyd Adams, Betty and Nancy met her at Arlington. She will return on Sunday.

Mr. and Mrs. Everett Ely went to Walla Walla to spend Thanksgiving with their daughter, who is an instructor in the Walla Walla schools.

Mr. and Mrs. Carey Hastings went to Pendleton on Friday to visit Mrs. Sam McDaniel, Jr., who is a patient in the St. Anthony hospital. Sam McDaniel returned to Hardman with them, Mrs. McDaniels underwent a major operation and is getting along as well as could be expected.

Miss Cecilia Bell went to The Dalles to spend Thanksgiving with a sister.

Mr. and Mrs. R. Saling and family, Mr. and Mrs. Kenneth Bleakman and daughter, George McDonald of Heppner, Mr. and Mrs. Roy Robinson and family, and Mr. and Mrs. Raymond McDonald of Hardman spent Thanksgiving day with Mr. and Mrs. John McDonald. The Salings stayed over and returned to Heppner on Friday.

Miss Rita Robinson spent the vacation at the ranch returning to Heppner on Sunday. Miss Robinson is a senior in high school at Heppner.

Mr. and Mrs. Carey Hastings and girls were Thanksgiving guests at the Victor Johnson home in Heppner Thursday.

Mrs. Earl Redding brought her baby home Thursday from Heppner where she had been quite sick.

Misses Lurline Sparks and Lois Hewitt, grade teachers, spent the vacation at their homes in Penelton and Milton.

Mrs. Catherine McIntire and daughter Rita went to Corvallis to spend Thanksgiving with Misses Mary and Ann McIntire. Mrs. McIntire returned to the ranch on Sunday.

Mr. and Mrs. Roy Robinson made a business trip to Heppner Monday. They stopped and visited a short time in town.

Mr. and Mrs. Fred Reed went to Spokane on Saturday. It is not known when Mr. Reed will return to the mill.

Front row, Betty Robertson, Portland, stationary chairman; and Lucile Cecil, Portland, assistant chairman.

Memorial Union To Be Rededicated at O.S.C.

Oregon State College. — Formal dedication of the remodeled portions of the Memorial Union building will be a feature of the Saturday night dinner dance at the O.S.C. homecoming, November 30. The banquet and ballroom, where this post-game function will be held, has itself been completed and entirely redecorated and has had installed an elaborate air-conditioning system unmatched in the state for a similar room.

Another now portion of the construction has involved the building of a mezzanine floor, which is used as a dining room for the men in Weatherford hall, men's dormitory. These portions of the Memorial Union were left unfinished at the time of its erection nearly 12 years ago. The cost of the new construction, totalling close to \$70,000, was met by student building fee income.

Alumni back for homecoming may help their former living groups to win two gold trophies being offered this year by the O.S.C. Alumni association and by the Corvallis alumni group, the Thirty Staters. These cups, one a permanent and the other a rotating trophy, will go to the house, hall, or independent unit having the largest number of alumni in proportion to the present membership actually registered in the Memorial Union building.

OSC Gardens Ready For Homecoming

Homecoming visitors to the Oregon State campus November 30 will get the first view of the new Oregon State exhibition gardens established this summer and fall near the northwest corner of the campus.

These gardens are expected to become a popular showplace in future year and a service to home owners and gardeners who can learn first hand the characteristics of different varieties of iris, peonies, roses and shrubs. Already planted are 450 varieties of iris and 160 varieties of the most successful peonies, while 75 varieties of roses will be put in yet this fall.

Hundreds of yards of valuable dwarf box wood border grown in the campus nursery have also been set out in a formal design. Various nurserymen of Oregon contributed in iris, peonies and roses for the garden, while both dwarf and tall box wood and hundreds of other shrubs which enclose the garden were raised by the college.

The rose garden will consist of 257

different bushes including eight pillars at either end. The varieties climbers to be trained on entrance include red, pink, yellow, white and

WPA Project Furthers Food Industries

A new WPA professional project, involving \$37,500 in labor, has been started by the food industries department at Oregon State college. Under the general direction of E. H. Wiegand, head of the department, the project will involve work in the central laboratories of Corvallis, in the branch food products laboratory at Astoria, and on several of the experimental farms. It will continue at least a year and perhaps two years, depending on the division of the activity.

The work involves research to discover new and more practical ways of preserving Oregon fruits, vegetables, and fish products, and developing new and better varieties of fruits and vegetables for these purposes. The work is being carried on in cooperation with the federal frozen foods laboratory in Seattle and with the new regional research laboratory in Albany, Calif.

In connection with berry variety development, the food industries staff and plant breeders are hoping for a severe winter this year in order to test the hardiness of new berry varieties which otherwise appear to be superior to any now grown commercially. If these new varieties prove hardy they will be increased and released to the public.

bi-color of both compact and tall types and both the tall and short polyanthas or baby roses.

The Oregon State gardens were established by the college following approval by the state board of higher education of a cooperative arrangement with Oregon nurserymen.
