Public Opinion

COURTESY

Shortly after his first election as Secretary of State, Earl Snell instituted his "Courtesy of the Road" campaign, with the result that the percentage of automobile accidents in Oregon has been greatly reduced.

By geographical location and climatic conditions, while we do sometimes swelter in the heat of the old sun during the day, we are blessed with a cool, soothing breeze that floats down from the mountains over our town during the night that makes sleep a real prospect and a joy.

All of this distress can be so easily prevented and should be avoided. There are a number of men about town who are ready and willing to haul all such nauseating garbage to the junk pile, where it can be burned without offense to anyone, for so small a sum as 50 cents to \$1.00 per month.

In many parts of town, tall dry grass has become a serious fire hazard and should be burned. We will have to tolerate the smoke from that for a short time only, but the fire hazard should be reduced.

The Mayor.
