Mr. and Mrs. Pettyjohn and family of Heppner and Ray Ayers spent Sunday evening at the Clayton Ayers home.

Mrs. Dale Akers and family and Bernice Wattenburger and daughters called Saturday at the Lila Myers home. Elsie Van Orsdale of Pendleton called on Sunday.

**OSC Frosh Enrollment Above Expectations**

Oregon State College—Although freshman registration here was larger than officials had predicted, a slight drop in total registration was foreseen on the basis of early enrollment of old students. Defense demand both for military service and trained workers is interfering with normal enrollment of men, although the government is encouraging continuation of college training, particularly in technical schools.

First day's complete registration of new students showed 1580 this year compared with 1539 last year, a gain of three per cent. Later registration was expected to bring the total freshman class to about 1600, and the total of all classes somewhat below the 4759 reached last fall.

**NOTICE**

No trespassing or hunting will be allowed on the Cora Burroughs or Lana Padberg land in Morrow county. Anyone found trespassing or hunting will be prosecuted to the full extent of the law.

CORA BURROUGHS,  
31-32p. LANA PADBERG.

*For 1942—a Beautiful New*

**FORD**

"6" OR "8"

**I**N THESE UNUSUAL TIMES we invite you to inspect an unusual new car—new in its beauty, its comfort, its choice of two fine 90 horsepower engines, 6 cylinders or 8.

See it and you sense at once that here is new style that will stay good for years. On a lower, wider chassis, we have designed new long, low, wide and modern lines.

Interior treatment is entirely fresh, distinctive, pleasing. The beauty of this Ford will more than hold its own in any company.

Inside, the car is big—wide across the seats, generous in knee-room, leg-room, elbow-room.

On the road this year you find the "new Ford ride" still further advanced in its softness, quietness, steadiness and all-round comfort.

At the wheel, you will find driving easier than ever. Steering, gear-shifting, action of the big and sure hydraulic brakes have all been made smoother and easier.

In quality, the car is sound to the last detail. Defense requirements have all been met without a single reduction in the basic and lasting goodness of the Ford mechanically. Some new materials have replaced old ones, usually at a greater cost to us, but in every case the new is equal to or better than the old.

If your family needs a new car, go see and drive this Ford. For what it is today and for what it will be through the years ahead, we believe that you will find in it more and better transportation for your money than you have ever found before.
