

### FSA Will Finance Food for Defense

Farm Security loans in Morrow county are being concentrated on financing of sound expansion of dairy, hog, poultry, feed crops and garden enterprises to aid FSA borrowers and disadvantaged farm families in meeting the "Food for Freedom" quotas set up by the county agricultural defense board, reports Bruce Stewart, county FSA supervisor, Heppner.

"Every effort will be made to help farmers unable to secure adequate credit from other sources to purchase the cows, hogs, poultry, seed, feed and equipment necessary to place their farms on an all-out defense production basis," Stewart said. "Where facilities for defense food expansion are available, farmers will not only be able to add to their incomes but prevent inflation by producing food for which there is increased demand."

Modifications of the neutrality act, making American ships available for carrying food to Britain, is expected to substantially increase present demand for defense foods, it was pointed out. Another important consideration, said Stewart, "is the fact that the machinery for supporting defense food prices, crop controls and need for feeding Europe and replacing breeding herds after the war, minimizes possibilities of a post-war slump in farm prices."

"FSA families are also planning to increase food production through machinery cooperatives, better sires, improved dairy and poultry practices, increased feed crops and expanded live-at-home program for meeting family food needs. All farm plans now being revised for the coming year will consider food for freedom AAA work sheets as one of the most important steps in doing their part for national defense."

Dr. J. P. Stewart, Eye-Sight Specialist of Pendleton will be at the HEPPNER HOTEL on WEDNESDAY, DECEMBER 10th.

Evening song service with gospel message at 7:30 o'clock.

Wednesday evenings: Bible study and prayer service every Wednesday evening at 7:30.

Thought for today: Be noble, and the nobleness that lies in other men, sleeping, but never dead, will rise in majesty to meet thine own.—Lowell.

### ALL SAINTS CHURCH

Service at All Saints (Episcopal) Church, Heppner, second Sunday in Advent, December 7, 1941: Holy Communion at 11 a. m. Officiant and preacher, Ven. Eric O. Robathan.

### Frances Wilkinson Honored at O. S. C.

Oregon State College, Corvallis, Dec. 3.—Frances Wilkinson of Heppner, freshman in lower division at Oregon State college, was one of 60 freshman girls recently invited by Alpha Lambda Delta, sophomore women's scholastic honor society, to be guests of the society at a formal dinner.

Alpha Lambda Delta sponsors this annual event to which all freshman women who made better than "B" averages while in high school are invited. The purpose of the dinner is to encourage high scholastic achievement among the freshmen. At the end of their first year all girls who have made a college grade point average of 3.33 or better are entitled to become members of Alpha Lambda Delta.

### CROP INSURANCE HEADED FOR BIG YEAR IN OREGON

Expanding each year since its introduction in Oregon in 1939, federal all-risk wheat crop insurance is headed for its greatest volume in 1942, from the standpoint of number of farms covered by policies, according to Clyde Kiddle, crop insurance assistant with the state AAA office.

Applications for insurance on winter wheat have been received from 5563 farms. Spring wheat policies are yet to be written, the closing date being February 28. For the 1942 crop year, 4691 policies were in force for both winter and spring wheat.

The loss record for 1941 presents a sharply contrasting picture between eastern and western Oregon, Kiddle reports. Of the 1228 loss claims paid up to November 15, only 122 came from the nine Columbia basin wheat counties. Most of the losses were reported in the Willamette valley, where insects and plant diseases hit many farms. Hail and excessive moisture led as the causes of eastern Oregon losses.

Nearly every kind of crop hazard is represented in the losses paid so far. Percentages of the total indemnities paid for each cause of loss were given as follows:

Plant diseases, 29.2 per cent; excessive moisture, 18.2 per cent; insects, 16.9 per cent; hail, 9.9 per cent; drought, 8.4 per cent; frost, 5.6 per cent; weeds, 2.5 per cent; volunteer vegetation, 2.5 per cent; migratory birds, 1.4 per cent; rodents, 1.2 per cent; winter kill, 1.1 per cent; fire, 1 per cent; crusting, .7 per cent; wind, .5 per cent; flood, .4 per cent; lack of irrigation water, .3 per cent; stray stock, .1 per cent; poor farming practices, .1 per cent; dust storms, .05 per cent.

### Right-of-Way Rules Reviewed for Safety

Few rules of the road are less understood or more misunderstood than those having to do with right-of-way according to the legal department of the Oregon State Motor association.

Pointing out that many accidents are caused by motorists who have either a vague or mistaken idea concerning right-of-way rules, the motorists' organization presented the following summary of provisions of the vehicle code on the subject:

Drivers, when approaching high-way intersections, shall look out for and give right of way to vehicles on the right, simultaneously approaching a given point, whether such vehicle first enters or reaches the intersection or not; provided, that the foregoing provisions shall not apply at any intersection where and when traffic is controlled by traffic control signals or police officers.

Any driver entering an intersection at an unlawful speed shall forfeit any right of way which he would otherwise have under this rule.

When intending to turn left, the driver must give a proper arm signal continuously for the last fifty feet before turning, but the actual turn must not be made until it can be done with reasonable safety. The person turning must yield the right-of-way to all oncoming traffic within the intersection or so close as to constitute an immediate hazard. Thereafter the driver may proceed to make the turn, and oncoming traffic approaching the intersection must permit the turning car to proceed.

Upon entering an arterial or through highway, the driver must first stop and yield the right-of-way to all traffic immediately approaching. Thereafter he may proceed and all vehicles approaching the inter-

### Kathryn Parker Sings With College Choir

Eastern Oregon College of Education, La Grande, Nov. 28.—Kathryn Parker, daughter of F. S. Parker, Heppner, is a member of the sixty-voice a cappella choir at the Eastern Oregon College of Education and will take part in the first formal choir concert of the year on Tuesday, December 16, at 8:15 p. m. in the college auditorium.

Two new features of the December program will include a madrigal group of thirteen voices singing Christmas carols of foreign countries, and instrumental and vocal ensembles. The last part of the program will be a formal choir concert with members dressed in burgundy choir robes with gold dickies and stoles.

Kenneth E. Schilling is director of the choir, considered one of the outstanding organizations of its kind in eastern Oregon. Twenty different towns are represented in the choir membership.

section on the through highway must yield the right-of-way to him.

Drivers entering public highways from private roads or driveways have no right-of-way, but must wait until they can proceed safely.

Pedestrians have the right-of-way within marked crosswalks or in unmarked crosswalks at the end of a block. While pedestrians who "jay-walk" do not have the right-of-way, their safety remains an obligation of the motorist.

The best medium for selling or trading is a G-T want ad.

"We'll be SNOWED UNDER this Christmas"

## Help!

More than 400 companies, all over America, are helping General Electric speed defense work by supplying parts that G.E. would make itself in normal times.

1. Two of these subcontracting firms ordinarily manufacture fishing tackle. Another normally makes watches, and still another makes carpets.

2. For making searchlights alone, subcontractors from five states prepare parts. About 75 companies contribute to building a steam turbine.

3. More than 150 different firms supply parts in a steady, scheduled stream for radio transmitting and receiving equipment for the armed forces.

4. Thus dozens of cities and small towns throughout America are becoming partners with G.E. in helping speed the national defense program.

General Electric believes that its first duty as a good citizen is to be a good soldier.

General Electric Company, Schenectady, N. Y.

GENERAL ELECTRIC

"It isn't practical to provide a telephone system BIG enough for all the folks who want to chat across the miles on Christmas Eve and Christmas Day.

"Hundreds of us will be on duty to put your calls through. If they're delayed—and some are bound to be—please understand and be patient.

"Thank you."
