## 3 Million Bushel Crop Cited; Groups Named

Morrow county's record wheat crop will exceed 3,200,000 bushels, according to word received from the local triple-A office, which has just completed a summary of 1941 production reports. This represents an average production of 31 bushels per acre, which is considerably more than twice as high as the average of the past ten years, which is 12.8 bushels per acre, and is more than 13 bushels per acre higher than the previous record established in 1928. Triple-A records do not go beyond the 1928 crop, but there is little doubt that more wheat was produced in Morrow county in 1940 than any previous year in the history of the county.

A considerable amount of this crop has gone under government loan with county office records showing a total of 2,498,892 bushels with a total loan value of \$2,370,980.88 under the loan at the close of business Tuesday night, December 30. Of this amount, 634,788 bushels were in farm storage and 1,864,114 in public storage.

For 1940 conservation payments, the local office reports receipt of \$80,000 to date.

Mr. Baker, chairman of the local committee, reported on the results of recent elections for committeemen to administer the 1942 program. Men elected were as follows:

County committee: Henry Baker of Eightmile, chairman; Frank Saling of Lexington, vice-chairman; and Oscar Peterson of Ione, member. Clyde Denney of Lexington and Frank Anderson of Eight Mile were elected as alternates to the county committee.

Community committeemen: Alpine, A. C. Lindsay, chairman; Leo

## Marines' Amphibian Tanks Go Anywhere

The amphibian tanks being used by the Marine Corps to train men in the newly formed "alligator" companies, are daily going through severe tests and have yet to be found wanting either on land or in the sea.

In the southeastern part of the United States, in a daily training routine, they climb steep banks, slough through mud, seaweed, hyacinths and swamplands, pushing down four-inch trees like matchsticks. They can spin on a dime, nose dive and stand on their tails without turning over.

The tank is practically non-sinkable. Traction on both land and in the water is provided by caterpillar treads with unusually wide cleats which give an extra pull no matter where the tank is, or at what angle it is standing.

The tanks are armed and equipped with radio. They were originally designed as a mercy machine to rescue persons marooned by storms and similar disasters when no other means of transportation were available. The Marine Corps realized how the "mercy machine" could be easily adopted to military use, and, as a consequence, more "alligators" are daily being added to the armed strength of the Corps.

As the new tanks are delivered, more men are being needed to man them, and an opportunity is given to men enlisting in the Corps to qualify for training with these amazing mechanized wonders. Any recruiting station will be glad to point out the many advantages of enlisting with the Corps in defense of America to any applicant, age 17 to 30, single and with no dependents.

Gorger, vice-chairman; Myles Martin, member. Eight Mile, Frank Anderson, chairman; Henry Peterson, vice-chairman; John Bergstrom member. Ione, Charles McElligott, chairman; Louis C. Bergevin, vice-chairman; Fred Mankin, member. Lexington, L. A. Palmer, chairman; Clyde Denney, vice-chairman; Terrel Benge, member. Morgan, Henry Gorger, chairman; H. V. Smouse, vice-chairman; Victor Rietmann, member. North Heppner, H. L. Duvall, chairman; Sam Turner, vice-chairman; H. M. Miller, member. South Heppner-Hardman, Frank Parker, chairman; Earl Blake, vice-chairman; C. N. Jones, member. Boardman, Paul Smith, chairman; A. Becholdt, vice-chairman; John Fisher, member. Irrigon, F. D. Brace, chairman; Chauncy Grimm, vice-chairman, and S. E. Frederickson, member.

## Employment Office Under Federal Control

The Pendleton office of the Oregon State Employment service is being transferred from state to federal control effective January 1, 1942, and will hereafter be operated as an office of the United States Employment service, L. C. Stoll, United States Employment Service director for Oregon, announced today.

Mr. Stoll said that the 24 offices of the state department are being made federal offices this week, following President Roosevelt's request to the governors of the states on December 19, 1941, asking that arrangements be made to transfer the personnel and necessary equipment to the federal government in a nationwide reorganization of the employment service in order to meet increasing demands of war industries.

All employees of the state employment compensation commission who are engaged in employment service functions will become federal employees at their present rating and salary under the state merit system.

The Pendleton office will remain in its present location, 201 S. E. Court St., under the management of Don Robbins, but will operate under the name of United States Employment service.

Claims for unemployment insurance under the state law will continue to be taken at the Pendleton office by federal employees and transmitted to the state agencies for the usual determination as to eligibility.

## Mustangs Meet First Defeat at Kennewick

A smooth-working, fast-breaking Kennewick quintet dropped Heppner from its unbeaten perch, 33-25, Monday night on the Washington team's floor. The Heppner team, distinctly ragged and stale from lack of regular practice during the last week, failed to show their customary brilliant team play and, but for a brief interval in the first quarter, trailed during the whole game, half-time score being 10-6. High for Heppner was Johnny Skuzeski with 10 points.

On Tuesday, January 6, Heppner meets Lexington on the latter's floor and on the following Friday opens Wheat league play with Condon on the local gym floor.

Following is the game summary:  
Heppner Kennewick  
Barratt 2 f 4 Jones  
Skuzeski 10 f 4 Evett  
Snow 2 c 13 Smith  
Scrivner 3 g 2 Brownell  
Pinckney 5 g 2 Hoppy  
Drake s 7 Hays  
Bothwell 2 s Kirk  
Ferguson 1 s 1 Garder  
Padberg s Libil

## P. P. & L. Trucks Get New Insignia

Bright and cheery new insignia have been placed on all Pacific Power & Light company service cars and line trucks, according to K. M. House, local agent for the company.

The attractive new signs, on which

the company's name is displayed against an orange background, also appear on the windows of the P. P. & L. office in Heppner.

In addition to brightening up the company's automotive equipment, the new emblems enable immediate recognition of the vehicles in case of emergency. All P. P. & L. service cars and trucks carry first aid kits and fire extinguishers, House pointed out.

Mr. and Mrs. Fred Bock are visiting a few days with Mrs. Bock's sister, Mrs. Vince Stingle. They had been on a trip to Spokane.

## BILLY BARRATT IN EAST

Continued from First Page  
forms of entertainment outlined. "Gordon Rowe (senior manager) and I were invited out to a club last night with some Carolina U. guys, etc., to celebrate Christmas eve—the players had to go to bed. Incidentally, a plenty good time was had. They celebrate Christmas here the same as you Westerners celebrate July 4th, with firecrackers, spirit(s), and song—I don't mean Christmas carols. They don't speak very good English here, either. They can hardly understand us.

"In general we're having nothing but a good time, and the fun has just started.

"Everyone here is behind us to beat Duke regardless of what the newspapers say.

"Heah's hopin' y'all have a heppy New Year—"

Addendum: "Here's hoping we do, too."
