Planning, Land Use Groups Meet 17th

"After War-What" will be the topic for discussion at a meeting of the Morrow County Program Planning and Land Use committees in the courthouse Saturday, January 17, beginning at 10 a.m.

Such committees throughout the nation are being called upon to submit plans and programs for helping meet the post war problems.

The immediate job of all farmers is to produce the foods needed by the United States and all allied countries. Results of the "foods for defense" survey conducted in November and the response by farmers to the recent survey of horses requested by the war department shows that Morrow county farmers are anxious to do their part in the fight against the aggressor nations, according to County Agent C. D. Conrad.

Conrad states, however, that when the war is won we can lose everything we are arming to defend, if in the transition to peace, we slip to a low national income with its inevitable unemployment, suffering, chaos and loss of freedom, whereas by timely planning many of the pos war problems might be avoided.

Any one who wishes is welcome to attend the Program Planning and Land Use committee meeting on Saturday and any or all of the Land Use Planning meetings scheduled as follows:

Lena-2 p. m., Thursday, January 15, at the Edwin Hughes home.

Lexington-7:30 p. m., Thursday, January 15, high school lunch room.

Eightmile-10 a. m., Friday, January 16, Rhea Creek Grange hall.

Hardman-2 p. m., Friday, January 16, school house. Heppner-7:30 p. m., Friday, Jan-

uary 16, county agent's office.

Along with post-war planning attention will be given at all these meetings to projects for consideration by the supervisors of the Heppner Soil Conservation district in directing the work program of the district.

Farm women are especially urged to attend the afternoon session of the Saturday meeting at the court house.

County Defense Group Asks Farm Repair Aid

A recommendation that at least the normal supply of machinery repair parts be put in local dealers' hands regardless of farmers' orders was made to the state board by the Morrow County U. S. D. A. Defense board at its last meeting.

The recommendation was made with the idea that the state board might use its influence in bringing

about such a move.

It was brought out at the county board meeting that priorities are set for agricultre which allow 150 percent of the normal amount of materials for machinery repair parts, but also that the parts will not be made until after dealer orders are in and supported by orders from the farmers.

Only 80 percent of the normal amount of materials has been allowed for making new farm machinery and the Morrow county board wishes to emphasize again the importance of all farmers getting their machinery repaired and in the best possible condition before it is too late to ob. tain repair materials and parts.

Plans are being made for a machinery repair school to be supervised by the Heppner Vocational Agricultural teacher, Arthur Strauss. Strauss explained to the defense board that provisions have been made for paying for the services of a trained mechanic to teach the repair classes and that both electric and acetylene welding equipment may be made available.

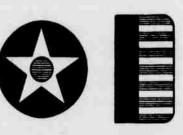

The board approved the plan of the repair school and wishes to urge all farmers who can to take advantage of it. Farmers who are interested should contact Strauss or any of the defense board members and let it be known what repair phases they are most interested in.

O.E.S. OFFICERS CLUB TO MEET

Officers club of Ruth Chapter 32, Order of Eastern Star, will meet at the Humphreys home with Rose Leibbrand on January 19 at 2 p. m., announces Ella Benge, worthy matron.

Chas. B. Cox, postmaster, and Mrs. Sunday on business.

How to Distinguish Nationality of

RUSSIA and Fuselage-Red star der-No identification

UNITED STATES NAVY

Wing and Fuselage-Blue disk with white star and red center Rudder-Blue, white and red vertical stripes

GREAT BRITAIN, R. A. F. Wing-Blue circle, white circle with red center Rudder-No identification; vertical red, white and blue stripes on fin. Rudder

MEXICO Wing-Red triangle, white triangle with small green triangle in center Rudder-Green, white and red vertical stripes

Civilian air raid spotters will have no difficulty distinguishing Axis planes from those of the United Nations if they memorize the markings illustrated above. American and British planes have designs of red, white and blue, and Russia has a red star. Watchers on the southern border occasionally may see the red triangle of Vera Happold motored to Portland Mexico. Axis raiders are easily spotted through the familiar black cross and swastika of Germany, the round red rising sun emblem of Japan and the Roman fasces insignia borne by Italian planes.
