

Is Demo Candidate

Francis Lambert announces his candidacy for the Democratic nomination for secretary of state.

His grandparents pioneered to Oregon in 1843, settling in Yamhill county close to the present site of McMinnville.

He was born in Portland, Jan. 2, 1902. Educated Holladay, Jefferson high school, Oregon Institute of Technology and Northwestern College of Law.

Married and has one son 4 years old.

He worked on construction jobs and in logging camps during 1923 and 1924. Worked for Truscon Steel company from 1924 to 1931, advancing from laborer to assistant superintendent. Employed by Oregon State Highway commission as construction foreman and inspector during 1931, 1932 and 1933.

Elected treasurer of Multnomah county in 1936. Re-elected 1940.

Has served on board of directors of Portland Philharmonic orchestra and is now treasurer of the Oregon Roadside council and on the board of the Multnomah county chapter, American Red Cross. A past president of the Active club, a member of the grange and other civic and fraternal organizations.

SING FOR YOUR SUPPER

Jinx Falkenberg, Buddy Rogers, Bert Gordon, Eve Arden

A brisk drama with some good musical numbers and comedy supplied by the "Mad Russian" of radio fame.

WEDNESDAY-THURSDAY

SWAMP WATER

Walter Huston, Walter Brennan, Virginia Gilmore, Dana Andrews, John Carradine, Eugene Pallette

An unusual story of foreboding and mysterious swampland that shapes the lives, loves and hates of people about it.

Even Bandsmen Give Life in Service, Cites Billy Cochell in Letter

"We navy bandsmen are often inclined to decry our uneventful role as ship-board fighters," wrote Billy Cochell this week to his mother, Mrs. Neva Wells, deputy tax collector. He enclosed a clipping telling of the death of the USS Arizona's entire band of 21 in the Japanese attack on Pearl Harbor.

"This clipping is in no sense a matter of satisfaction," he wrote. "...While our job is considered by many as an unnecessary imposition on the paymaster twice a month, we take pride in the knowledge that first and always our business is especially involved in carrying out our routine as morale builders. We do whatever we are asked to do and our chief regret, as musicians, is the lack of opportunity to 'fight the ship.' I knew the Arizona band as a fine organization of capable and conscientious musicians. Along with this loss were others of our rating and we feel that we are in a position to be included on the ship's roster as 'Service-men in this fight for America.'"

The clipping said, in part: The Arizona was destroyed in the Japanese sneak attack. The Navy issued this statement:

"What becomes of the boys in the band when the guns begin to roar?" "Many a civilian has asked that question. The most dramatic answer has been furnished by the incident of the ship's band of the battleship, Arizona. On December 7 they went to their battle stations, one of the most hazardous on the ship—down below passing ammunition to the guns above. To a man the Arizona's band was killed when the battleship's magazine exploded."

CARD OF APPRECIATION

I wish to express my sincere appreciation to the Heppner Fire department and to the many kind friends and neighbors for their assistance during the recent fire at my home.

Blanche Brown.

RUTH CHAPTER TO MEET

Ruth chapter 32, Order of Eastern Star will meet in regular session at Masonic hall tomorrow evening, April 10, announces Ella Bengé, worthy matron.

Mrs. Elton Robinson and children arrived Tuesday from Pendleton to join Mr. Robinson, cashier at P. P. & L. office. They have taken the Kenny residence on Center street. The Robinsons have three children, two girls and a boy.

Victory Home Hints

All home folks in and around Heppner can join the ranks in the all out effort to avoid waste.

Already every rag is being saved, every scrap of paper is being neatly stacked and tied in bundles to be picked up by boys and girls.

Farm homemakers are asked about food and household supplies. Hazel Duncan, home supervisor of the Farm Security office, has some suggestions. It's butchering season on the farms. A good cooking compound can be made using half lard and half beef suet. That combination makes good bread, good deep fat for frying doughnuts, and good pastry.

The leaf fat in beef, and the tallow of mutton can be clarified and made into soap. You might put in your diary for next hunting season that elk and venison tallow make excellent laundry soap:

1 can lye, 1 qt. warm water, 2 T borax, 1-2 cup warm water, 6 lbs. grease, 1 cup household ammonia.

Dissolve the lye in a quart of warm water. Dissolve the borax in ½ cup of warm water. Melt the grease and into it slowly stir the dissolved lye. Stir the mixture until it is as thick as honey then add the dissolved borax and the ammonia. Stir about 5 minutes longer, then pour into a mold. No cooking is required. When firm, cut in cakes, using a fine wire or a piece of string. Use when 4 weeks old. NOTE: Do not use aluminum, as earthenware or enamelware is best. An iron kettle is good.

For soap from cracklings, try this one:

To each gallon of cracklings, add one tablespoon lye. Cover with water and let cook on the stove for about two hours. Add a large amount of water and let stand. A layer of fat will harden on the surface. The water serves to separate the fat from the settlings. Remove the fat and proceed as with any stir soap. Dissolve one can pure lye in 2½ pts. cold water in a crock or a granite vessel. Set aside until it has cooled to a temperature of 80 degrees. Heat 5½ lbs. of fat and set aside until the temperature is not over 120 degrees. Now slowly pour the dissolved lye into the grease. Stir until lye and grease are thoroughly combined and the mixture drips from the stirrer like strained honey. Stir slowly but not too long as there is danger that the lye may separate. From five to fifteen minutes is enough according to the grease and the weather. Pour into a mold, cover with blanket or carpet, set in a warm place for a day or two, empty, and cut up as de-

Marines Make Call For Electrical Men

The United States Marine corps needs a large number of officers with electrical background for duty in the supervision and maintenance of radio aircraft warning devices, allied radio equipment and installations.

A call to civilians between 20 and 40 years of age to apply for commissions in the corps has been issued by the Commandant Lieutenant General Thomas Holcomb.

Candidates for commissions should

sired. Even the town homemaker can save the bacon drippings, the extra fat from the roast and make soap. Soap can be made in a glass pint measuring cup from as little as one cup of fat. When we save fat and make our own soap, we release glycerin for use in the high explosives of warfare. Here is Hazel Duncan's recipe:

1 cup clarified fat, 2 teaspoons borax, 2 teaspoons ammonia, 2½ tablespoons lye dissolved in 6 T water.

When the fat is warm, add the lye dissolved in water, being careful to stir always and only in one direction, then add the ammonia and borax. Do not stir long after all ingredients have been added, but pour into glass container as soon as the soap thickens somewhat. Crease in bars and cut the next day for storage. This soap should ripen from 3 to 6 months before using.

be able to fill one of the following: Hold a degree of Bachelor of Science of Electrical, Radio, or Communication Engineering or Electronic Physics awarded by an accredited college, or:

Hold a degree of Bachelor of Science in any engineering subject and have had reasonable practical experience in radio or electrical work, or:

Have successfully completed at least two years of electrical, radio or communication engineering subjects at a college, university or commercial school of recognized standing and have considerable experience in one of those fields, or:

Have the equivalent of any of the above by reason of extensive practical experience in the field of radio where the applicant has been connected with the design, erection or maintenance of ultra high frequency radio transmitting or reception.

Anyone in this section interested in applying for a commission in this specialized field is advised to write a letter to Lt. Col. Raymond W. Conroy, Naval Reserve Aviation Base, Oakland Airport, Oakland, Cal., or The Commandant, U. S. Marine Corps, Headquarters, Washington, D. C.

TOPS WOMEN BOWLERS

Mrs. Agnes Curran set a new record for women on the Heppner alleys Tuesday evening with a game score of 257. She marked in every frame, with spares in two. The alley record for men is held by Jimmy Driscoll with 264.
