Wheat Release to Farmers Permitted

Action to assist Morrow county farmers to use farm-stored wheat in producing food for freedom was announced yesterday by the county AAA committee.

A special department of agriculture program will be available until June 30 to permit farmers to redeem farm-stored wheat held under loan to Commodity Credit corporation at feed wheat prices.

At any time until that date, farmers may redeem their wheat, which has been mortgaged to the corporation as security for the loans they obtained after harvest last year, at the department's feed wheat prices. The redemption price will be the 1941 loan value plus three cents.

Producers redeeming their wheat under this program must agree in writing on proper forms that the wheat will be fed on the farm to livestock or poultry, or that it will be sold for such purposes.

Any storage allowances which have been made by Commodity Credit on the wheat may be kept by the producer, or may be deducted from the redemption price of the grain if they have not been received. The corporation has allowed seven cents a bushel to defray storage costs the first year the grain was stored, and five cents for the second year in the case of 1940 wheat released a year ago.

Producers who have agreed to release farm-stored wheat to the corporation may redeem their wheat under this program, providing that it has not already been delivered to the corporation.
