Official Paper for Morrow County

Our Flag

No more fitting reminder of Flag day, June 14, can be presented than that of Roy N. Vernstrom, staff sergeant, USMCR, transmitted this week with a Marine Corps booklet, "How to Respect and Display Our Flag."

Vernstrom writes: "Old Glory speaking for itself makes one's spinal column—the xylophone of our system—tingle to the taps of Patriotism: 'So long as men love liberty more than life itself; so long as they treasure the priceless privileges bought with the blood of our forefathers; so long as the principles of truth, justice and charity for all remain deeply rooted in human hearts, I shall continue to be the enduring banner of the United States of America.'"

LOCAL NEWS

Mr. and Mrs. F. W. Turner motored to Portland Thursday and visited with son Bob and family, and daughter Anabel, returning Friday evening. A birthday dinner was attended at son's home for grandson Mike's third birthday. In a recent letter from their daughter, Mrs. Raymond Huddleston, at Valdez, Alaska, they learned that no plans were being made there for evacuation of women and children, and Mrs. Huddleston expressed determination to stay as long as they would permit her.

Mrs. Zella Dufault visited last week at Bremerton, Wash., where she went in company with her sister, Mrs. James Furlong, who returned to her home there after a visit here. Mrs. Dufault reports seeing Howard Furlong who is stationed at Bremerton with the navy medical corps, who told also of seeing Arnold Sharp, former local baker, now baking for Uncle Sam's navy.

Guests at the home of Mr. and Mrs. E. W. Moyer are their daughters, Louise of Enterprise and Carolyn of Ontario, both teachers, Miriam, student at University of Oregon, and Mrs. Robert Owens of Waverly, Wash., who is accompanied by Mr. Owens.

Mr. and Mrs. Glen Hayes are in receipt of word from their son, Richard, who informs them he is "somewhere in Australia." He said they were having a grand time and enjoying life very much.

Relatives here have received word that Jack Fell, Sammy Johnston, Donald Bellenbrock and Earl Crismon are all with Uncle Sam's expeditionary forces "somewhere in Australia."

Born to Mr. and Mrs. Harry Parsagian (Beverly LeTrace) at the home of Mrs. Ed LeTrace in this city June 8, a 7 3-4 pound daughter, Linda Jean.

Mr. and Mrs. H. J. Biddle left Sunday for DeLake on the coast where they recently purchased property, and where they expected to spend the summer.

Mrs. William Driscoll is in Okanogan, Wash., assisting her daughter, Mrs. M. Zimmerman, who recently underwent an appendicitis operation.

Mrs. W. P. Herron, nee Gladys Bengé, of Medford is visiting her mother, Mrs. Rose Eskelson.

GIVE APPRECIATION

The Boy Scout troop of Heppner wishes to thank all those who helped in any way in the waste paper drive. Due to the fact that the warehouses of Portland are filled there will be no further collections made until further notice.

VICTORY MILK CANS ARE FULL CANS

Full milk cans depend upon well fed cows. Every acre of Pacific Northwest land that is shifted from surplus grain production to pasture and hay crops and every acre of these erosion controlling crops that is made to yield its best through supplemental irrigation, pasture improvement and other conservation farming means more milk to market for the United Nations. © U. Week of the War

Continued from First Page

tive industry in Detroit, said American industry could "more than double present production by 1944." He also said the government synthetic rubber program would be able to take care of "all war production and essential civilian needs" by 1944. Despite the fact that almost twice as many light arms are required per man since the development of parachute troops, the Army has enough weapons to arm every soldier in the U. S., and all it can send abroad under present shipping conditions, War Under Secretary Patterson reported. He said over-optimism regarding production schedules is unwarranted, however, because of rubber, nickel and copper shortages.

A record total of 58 ships were delivered into service during May, while 65 other ships were launched and keels were laid for 75, the Maritime Commission reported. This compared with 36 delivered and 51 launched in April. The President asked Congress for an appropriation of \$1,100,000,000 for the WSA to acquire and operate merchant vessels to carry American arms.

Federal Agencies asked Labor-Management Committee in 800 war production plants to keep American workmen fit and healthy because sick and injured war production workers are now causing a loss of 6,000,000 work days every month.

War Declared Against Balkan States

The U. S. declared war against Bulgaria, Hungary and Rumania. The President said the three countries previously declared war on the U. S. as instruments of Hitler, and currently they are engaged in military operations against the United Nations and are planning to extend those operations. The Justice Department said enemy alien restrictions will be applied against nationals of the countries in the United States. Assets of these countries have already been frozen.

Foreign Relations

The U. S. signed a lend-lease agreement with China, substantially the same as its aid to Britain, and proposed lend-lease agreements on the same terms with the Norwegian, Belgian, Polish, Greek and Netherlands governments in exile. Lend-lease Administrator Stettinius said under the joint control of the combined boards in London and Washington the resources of the United Nations are now, in effect, one big pool, with each nation contributing to the extent permitted by its resources and military position. Reciprocal aid from nations receiving supplies from the U. S. is providing material for American troops abroad without dollar payments, he said.

The Agriculture Department reported 5 billion pounds of farm products were delivered to United Nations representatives between April, 1941 and May 1, 1942.

The American Red Cross said it has aided almost 750,000 war victims in the middle east and distributed more than \$2 million worth of relief material there, largely purchased with U. S. government allocated funds. The State Department said 193 persons, including many U. S. citizens who have been awaiting passage to Sweden, arrived in New York on the SS Gripsholm, and 10 Axis officials and approximately 930 Axis civilians sailed for Lisbon on the Drottingholm.

The Armed Forces

The House passed and sent to the Senate a \$3 billion supplemental Naval Appropriations Bill to provide 200,000 tons of submarines, 500,000 tons of auxiliary vessels, \$150 million for aviation plant facilities, and other funds. Chairman Vinson of the House Naval Affairs Committee said approximately 99 more combat ships will be commissioned during the remainder of 1942. Three more destroyers were launched. The CAA and the Navy completed arrangements to train 20,000 naval reservists as pilots at 600 CAA training centers during the coming year, if money is appropriated. U. S. Army training films, especially those showing mechanism and tactical use of U. S. equipment, are being recorded in universal Spanish, Portuguese and Chinese, the War Department said, for exchange with other members of the United Nations.

Civilian Supply

WPB Materials Director A. I. Henderson said vital materials can no longer be used except for war and maintenance of those things necessary to the war because from now on "it will be a continuous problem to provide materials to meet the needs of our fighting forces." The WPB said preferred applicants for new telephones cannot obtain service unless they prove the service is essential to the discharge of their responsibility for public health, welfare or security. The Board issued an order relieving from restrictions lumber deliveries for more than 100,000 of the most essential housing units now under construction. The FHA authorized its field offices to begin insuring to the extent of \$500,000,000 loans of private lending institutions for construction of housing for war workers. A Food Requirements Committee, headed by Agriculture Secretary Wickard, was set up to control production and allocation of all civilian and military food supplies.

Rationing

All motorists will receive A books containing a year's base supply of

48 coupons under the new permanent gasoline rationing system which will be established in the East about the first week of July, OPA said. Supplementary B books with an additional 16 coupons will be issued to motorists who prove need for extra rations, providing they are members of a car pool. No unlimited privileges will be granted any one, but C books containing 96 coupons will be issued to some motorists. S books for trucks and buses, good for a four month period, will cover just enough fuel for the mileage allowed in forthcoming ODT regulations. Motorcyclists will receive D books, good for 40 percent as much gasoline as A books. Under the new system service stations and distributors will be required to turn in collected coupons when purchasing new stocks. The OPA released about 10,000 bicycles to War Production plants qualified to buy them for transportation of workers.

Sam Sato Writes of Jap Relocation Camp

Walter Skuzeski this week received a letter from Sam Sato, Japanese boy who attended Heppner high school before going to the War Relocation camp at Tule Lake, California. Young Sato writes of the camp as follows:

"I arrived at this relocation camp last Wednesday morning about 10:30 a.m. This camp is very large, it is said to be able to house 17,000 people. The camp is made up of blocks of barrack like buildings. Each block has a mess hall, wash rooms, laundry rooms, ironing room, nursery, recreation room, etc. The barrack like buildings are almost luxurious. They are made into four apartments. Each apartment is able to hold five people. They have five windows in each apartment. Each apartment also has a small heating stove. The beds are regular army cots with army mattresses. The WRA also provides with four wool army blankets. The food is good and we get plenty of it.

"The weather out here is much like the weather in Heppner. The wind that blows around here is very cold.

"This camp is situated on a dried up lake bed. We are still surrounded on three sides by Tule Lake. The land around here is mountainous. I can look out of my window and see snowcaps a few miles from here.

"There are a few soldiers guarding us, but not many. The soldiers have a camp at the south end of the camp. There are two fire houses at the north and south ends of this camp. There is also a large hospital here. They plan to build a large grade and high school here. They also plan to open a library here within a few days. Last Saturday night they had a dance. They are building a baseball diamond here."

STAR Reporter

FRIDAY-SATURDAY

HEART OF THE RIO GRANDE

Gene Autry makes another welcome appearance with his boots and saddles comedian Smiley Burnette, comely Fay McKenzie and popular Edith Fellows. Tadpole is also back again. "Deep in the Heart of Texts" is featured among other pleasant tunes.

—Plus—

SHUT MY BIG MOUTH

Joe E. Brown, Victor Jory
Adele Mara

The little man with the wide open face visits the wide open spaces and gets mixed up with bandits and Indians. A funny burlesque comedy.

SUNDAY-MONDAY

BAHAMA PASSAGE

(In Technicolor)
Madeleine Carroll, Stirling Hayden,
Flora Robson

A scenic gem with all the ingredients of good entertainment... a top-notch cast in a dramatic story of the tropics.
