Ione Youth Registers Early at Oregon State

Oregon State College, Corvallis, July 15.—Already accepted here as a member of the freshman class starting September 21 is Gene Francis Empey of Ione.

Indications are that the freshman class will be as large as many boys are planning to combine college work with one of the various military enlistment opportunities offered, while better employment conditions favor the attendance of girls, who are less self-supporting than men.

Early filing of applications and early reservations of living quarters, in the case of dormitories and cooperative houses especially, is recommended by Mr. Lemon.

These formidable fighting machines can not take part in offensive action until they reach the theatre of war. No matter to what extent production is stepped up, transportation still remains a vital factor. That's where Union Pacific is doing a job of which we are mighty proud.

Over the Strategic Middle Route, connecting the East with the West, gigantic freight locomotives are hauling tanks, guns, plane parts and other war materials. Trainloads of troops roll over the steel rails. A great army—in workmen's uniform—are "keeping 'em rolling." That's their job—and they're doing it!

For information concerning passenger and freight transportation, consult local representative, phone 132, Heppner.
