WHEN YOU SEE AND DRIVE New JOHN DEERE Model "H"

You're in for the surprise of your life when you see and drive the John Deere Model "H"—the sensational new small tractor that handles two-row equipment and completely replaces animal power on small and large farms everywhere, cutting costs 'way below their former level, and making farming more profitable.

And when you learn the price, you'll wonder how John Deere can give you so much in a tractor that sells for so little.

In addition, the Model "H" not only burns low-cost fuel but it uses only 1/3 to 1/2 as much fuel on the many jobs within its power range, as would larger tractors handling the same load.

Come in, see it, and get "the surprise of your life."

Any Bonds Today

You may be surprised to learn that the U. S. government's monthly sale of one billion dollars worth of war bonds necessary to partly finance the war has not been realized for any month since the beginning of the war, except for the month of January immediately following Pearl Harbor. One billion dollars worth of bonds must be sold in September and the treasury department has called upon the motion picture industry to act as the spearhead in this drive. Every member of the industry has volunteered his services in this great work. We urge all our personal and business friends and acquaintances to buy WAR BONDS to the maximum of their ability.

Your subscription will be your salute to every mother's son who is waging the good fight!
