From where I sit...

by Joe Marsh

WHEN I drop into Sam Abernethy's store, I usually come away with something worth rememberin'.

us, where did you get all this inside, private information?"

Well, sir, I never saw Sam so mad since Lem Martin's dog chased the cat into the pickle barrel. And I guess I never saw a man crawfish out of a place fast as that fellow did.

Thinking it over afterwards, I came to the conclusion that Sam's got the real system for handling folks who throw facts and figures around free and easy like.

F'rinstance, I've noticed there's some pretty fancy fact and figure jugglin' done by some of those who oppose the right enjoyed by millions of decent people to drink a friendly glass of beer when they want to.

Lately I've been asking these folks the same kind of questions that Sam asked that rumor-mongerin' stranger. Try it yourself, next time you hear anybody making derogatory remarks—whether it's against the war effort... or just against beer.

Hangers Are Scarce

Because of the defence program the manufacture of hangers is being deferred and we would appreciate the return of hangers whenever possible.
