From where I sit . . .

WILL FROST dropped over last evening and we had a glass of beer on the back porch. I could see Will was bustin' to say something . . .

"Well," he finally remarks, holding up his glass to the light of the settin' sun, "I paid my income tax today—third installment."

There was a note of pride in Will's voice that some folks might have found amusing—if they didn't know Will . . .

Wasn't amusing to me though. I happen to know this is the first year Will's filed an income tax return, and I suspect the payment wasn't very big . . . probably in the general neighborhood of \$3.26. But I know how it made him feel . . .

Made him feel good . . . because he was doing his part as an American citizen . . . holding up his end.

Made him feel proud . . . to mail that money direct to Uncle Sam—for things that's needed to win this war with.

That's the way Will would feel about bein' able to pay income taxes . . . kind of citizen he is.

And speakin' of taxes . . . I read the other day that during the nine years since beer came back, beer taxes have brought in more than two and a half billion dollars to the government.

Then it went on to say that the beer industry provides more than a million dollars a day in taxes. Some of that's federal, some's state, and some's local. But any way you describe it, it's a lot of money.

Right here in Oregon, for instance, the taxes from beer last year were enough to pay for twenty-five fighter airplanes, thirty-eight medium tanks, or sixty-four anti-aircraft guns.

(And it wasn't so long ago a lot of that money was going into pockets of bootleggers and gangsters.)

"There," I thought to myself when I saw Will holding his glass up to the light, "there are two Americans that pay their way . . . Will Frost and beer."
