**TOO MUCH POLITICS**

We have been thinking about the fact that the Heppner paper came out for Mr. Stockman. People may be more interested in political parties than in their own benefits, but it is rather astonishing that people in a wheat country, which is so greatly benefitted from wheat loans and other legislation made possible by Mr. Pierce and his position, would be willing to surrender that. He is Chairman of Subcommittee No. 1, of the agriculture committee which handles all wheat and forest legislation. His opponent could have no influence whatsoever on it. It is difficult to hold those loans. It needs someone who understands wheat and has a strong position. Do you think the people there understand this?

Reddy Kilowatt  
YOUR ELECTRIC SERVANT

★ In the famous Pendleton Woolen Mills a penny's worth of electricity operates a giant loom while it weaves a complete Navy blanket. This is just one example of Pacific Power & Light Company's war work. In shipyards, on 12,500 farms, and in scores of war factories PP&L electricity is speeding production . . . at amazingly low cost.

Business management started in years ago to make electric service widespread and cheap. Pacific Power & Light has extended its lines and reduced its rates again and again . . . until now electricity is today's biggest bargain . . . in war work as well as in your home.
