

OREGON 4-H DAIRY TEAM TO CHICAGO

ANNOUNCEMENT is made by State Club Leader H. C. Seymour that Oregon will be represented in the sixth nationwide dairy production demonstration contest at the 21st National 4-H Club Congress to be held in Chicago Nov. 29-Dec. 2, by Robert, 18, and Don Tagg, 16, both of Warrenton, Clatsop county. The boys show how to construct a

wooden tank for liquid manure, and assert its proper handling is one of the most important functions on a farm. Transportation and other expenses to Chicago are provided the team through the Kraft Cheese Company, which also appropriates \$2,800 in college scholarships for the eight first and second place teams selected in the finals.

Lexington News

By MARGARET SCOTT

The baby daughter of Mr. and Mrs. Kenneth Palmer has been named Carol Ann.

Mrs. Ralph Jackson and daughters spent Friday in Pendleton.

Mr. and Mrs. Art Hunt spent last week in Portland and Oregon City.

Elmer Hunt and Vernon Scott spent the Thanksgiving holidays at their homes here from their work in Portland.

Thursday guests at the Laurel Ruhl home were Mr. and Mrs. Merritt Gray and son and Mr. and Mrs. Gene Gray and family of Stanfield and Norman Ruhl.

Mr. and Mrs. Everett Crump of Hermiston spent the week-end in Heppner and here.

Thanksgiving guests of Mr. and Mrs. C. C. Carmichael were Mr. and Mrs. Ladd Sherman and daughters of Irrigon.

Week-end guests of Mrs. Melissa Stonebraker and Mrs. Laura Scott were Mr. and Mrs. Chester Stonebraker and family of Westfir and Mr. and Mrs. Marvin Manning of Pendleton.

Mr. and Mrs. Jim Wren have moved to a farm above Heppner.

George Tucker was a dinner guest at the Vernon Scott home Thursday.

Mrs. Charles Buchanan is confined to her home by illness.

Mr. and Mrs. Cliff McCabe and family have moved to a farm near Ione.

Mr. and Mrs. Carlyle Harrison and sons of Cascade Locks spent the holidays at the Laurence Palmer home.

Mr. and Mrs. Harry Dinges spent the holidays at the Gerald Aeklen home in Grants Pass. They were accompanied home by their son Dan.

Mr. and Mrs. Charles Breshears spent Thursday at the Douglas Gibson home in Hermiston.

Mrs. Roy Williams spent Monday in Heppner at the home of her mother, Mrs. Lonnie Ritchie.

Mrs. Kenneth Palmer and daughter returned from Heppner hospital Tuesday. They will stay at the Kenneth Marshall home for a few days.

Mrs. Nettie Davis and son Jimmy returned home Saturday from a vacation spent in Yakima and vicinity.

Altha Greggs of Heppner was a week-end guest of Frances Papi-neau.

Mayor and Mrs. Lonnie Henderson and sons spent the week-end in Portland.

Making Meat Out Of Wheat Pays

Whenever 100 pounds of pork live weight sell on the farm for the same as the cost of 625 pounds of grain, the hog raiser will be paid for his feed, interest, taxes, labor and other expenses, says H. A. Lindgren, extension animal husbandman, in a new OSC extension bulletin entitled "Converting Wheat to Meat."

This fall, said Lindgren, with ground wheat at \$35 per ton, hogs would need to sell for 11 cents a pound on the farm to pay for all the costs mentioned. As a matter of fact, they have ranked from 13 to 14 cents, thus allowing a safe margin. Under such conditions hogs can be fattened profitably on wheat, and the operator will also be contributing to the strengthening of the food chain that leads to victory.

The eight-page bulletin puts in brief and direct form a considerable amount of the experimental

findings and experience of growers in feeding wheat to hogs, cattle and lambs. As wheat is the chief surplus crop in Oregon and is now available at below parity prices for feed purposes, its greater use for feed serves a double purpose, Lindgren points out.

"Oregon products annually 75,000 feeder cattle, most of which are sent to other states to be fattened. Forty per cent of the lambs produced in the state are sold as feeders. The Pacific coast produces only half the pork products normally consumed in this area. At this time there is opportunity to aid the war effort by converting a surplus crop into meat, wool, fats, and essential livestock products," the author states.

The bulletin contains a tabulation of costs and probable returns in feeding cattle and lambs at current prices of grain, hay, and finished livestock. Both cattle and lambs will show reasonable returns above feed costs at present prices on the basis of established ratios of feed requirements per hundred pounds of gain.

Both this bulletin and earlier, more detailed publications on feeding wheat to livestock may be had free.

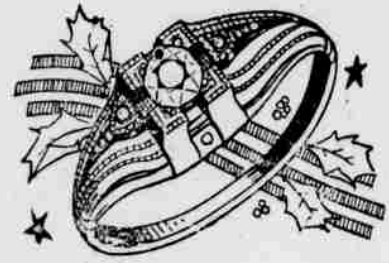

OVER FROM IRRIGON

Heppner visitors Tuesday were Mrs. Evelyn Kenney, Mrs. Allie Lorenzen and Mrs. Hazel Steagall of Irrigon, who had business to transact at the court house.

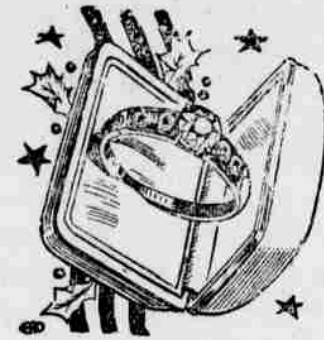

IONIANS VISIT

Bert Mason and his daughter-in-law, Mrs. Dora Mason, were transacting business in Heppner Wednesday. Mrs. Mason was preparing to leave for Portland for a brief visit.

FOR 1¢ I LOAD TWO TONS OF SUGAR BEETS!

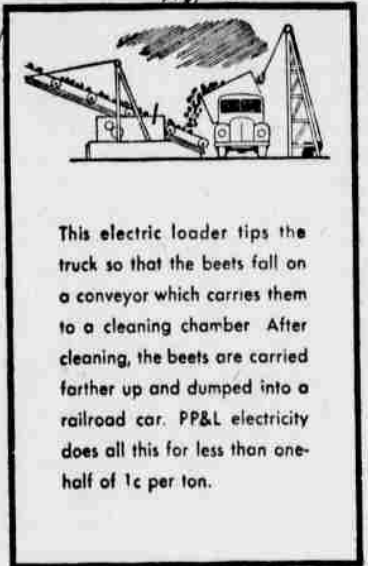

... I'm the lowest-paid worker on the farm!

Reddy Kilowatt YOUR ELECTRIC SERVANT

★ With farm labor so scarce, electricity is appreciated now more than ever. It does so much hard work, and yet costs so little . . . especially here in the Northwest. For example, in the Yakima Valley a penny's worth of PP&L electricity performs the work of many men as it loads two tons of sugar beets onto freight cars for shipment to the Utah-Idaho Sugar Company factory.

Shipbuilders, commanders of army camps and airfields, managers of war industries . . . as well as farmers and food processors . . . will tell you that dependable PP&L electricity is one of their most productive, yet cheapest helpers.

You've probably discovered the same thing in your own home . . . low-cost electricity does the work of many hands. It washes and irons, cleans the rugs, heats the water, cooks the meals, refrigerates the food . . . all for a few cents a day!

This electric loader tips the truck so that the beets fall on a conveyor which carries them to a cleaning chamber. After cleaning, the beets are carried farther up and dumped into a railroad car. PP&L electricity does all this for less than one-half of 1¢ per ton.
