THE SCHOOL MUST CARRY ON!

It is difficult to foresee what the ultimate outcome will be if the war effort should cripple the schools too seriously. Inroads have been made which cause school authorities to ponder the situation with a measure of alarm and the feeling is growing that more consideration will have to be given the schools if irreparable damage is not to be done.

Two trains of thought present themselves regarding the subject in hand. One is what will our schools avail us if this war is lost, and the other is just how far will we get if the war is won but the schools are lost. That's a bit involved, but there is argument on either side.

In the first place, most of us realize what will take place if we do not upset the plans of the Axis. Briefly, it will be the end of our way of life, an important part of which is our educational system. On the other hand, if too great handicap is placed on education that handicap will be reflected in the war effort, for much of the basic training for waging the war is found in our elementary schools, high schools and colleges.

It is natural for young men in the teaching profession to feel the urge to get in the fray, and they are to be commended for this demonstration of patriotism, yet many of them might well perform an equally patriotic service by remaining on the job and devoting their talents to the physical and mental development of youths who will be called to the colors in due time. If there are young men teachers who fear they will be censured for hiding behind a contract they should banish that fear. The draft will take care of their cases

and in the meantime their services will be appreciated in the classroom just as long as they are permitted to remain.

A GOOD APPOINTMENT

Governor Sprague will make no enemies by virtue of his appointment of Judge Arthur D. Hay of Lakeview to succeed the late Justice Rand on the state supreme court. At least there will be no complaints from residents on the east side of the Cascades and we are sure all fair-minded citizens west of the mountains will be pleased.

The Lake county jurist is eminently fitted for the position and we believe this statement will be verified before he has seen many months on the bench. Reversals have been rare since Judge Hay began service in his jurisdiction and he has answered frequent calls to serve on circuit benches in Klamath, Multnomah and other counties. His opinions are held in high regard by other jurists and by attorneys practicing in his court.

Lake county suffers the loss of a superior jurist and a fine family.

78 PERCENT OF AMERICANS BUY WAR STAMPS, BONDS

A recent survey by the Gallup poll revealed that 78 percent of Americans have bought War Bonds and Stamps.

Reporters for the poll asked a representative cross-section of the voting population this question: "Do you happen to have bought any war bonds or stamps?" The result was: Yes—78 percent; no—22 percent.

Seeking the answer to the failure of one out of every five adult Americans to buy war bonds and stamps, Dr. George H. Gallup, head of the Institute of Public Opinion, made a study of the poll and found that two large segments of the population—the lower income group and the farmers—are responsible for this situation.

Professional men rate 92 percent; business men 88 percent, white collar workers 88 percent; skilled and semi-skilled 78 percent, and unskilled and service workers 65 percent.

Perhaps the poll was taken and tabulated before western wheatraisers and stockmen got returns on their 1942 crops. However, tabulations are made by large groups and sections and the mountain area and the far west rated only 78 percent in the poll.

Eddie Cantor says gas rationing was instituted in an effort to keep Eleanor at home. Could there be any truth in that statement?

In all the flurry over gas rationing nothing has been heard of special gastronomic feasts last Thursday. Rationing has its good points at that.
