Letterless Soldier Is Forgotten Soldier

A letter recently received by Bert Mason from one of our Morrow county boys in the service leads Bert to believe that soldiers may be classed as "forgotten men." After reading the letter, the Ione merchant was struck with the thought "how many forgotten boys from Morrow county are serving their country at war?"

The soldier's letter in part states: "Dear Bert: I received your most welcome letter several days ago so I will take time to answer. I haven't heard from anybody in that part of the country for so long I thought they had forgotten us soldier boys."

This boy, like many others, craves home news and Mason suggests that everybody attempt to get the address of a soldier and write him of the happenings around his home community. This particular youth stated that he had met but one other boy from the old home since joining the service.
