

Our Men In Service

Pvt. Keith Marshall writes Mrs. Marshall that he is in St. Petersburg, Fla. where he is being sent for technical training in the army air corps. He thinks Florida a beautiful land and living conditions are pretty grand, what with headquarters in the famed Viceroy Park hotel which the government has taken over for the duration.

Two more recruits from Heppner bent on taking a fall out of Herr Shickelgruber et al, recently were checked in at the United States Naval Training station at Camp Farragut, Ida. Dick Nichols Edmondson, son of Mrs. Della Lee Edmondson and Dewitt Henry Jones, son of Mr. and Mrs. D. H. Jones, now are preparing themselves for whatever Uncle Sam asks of them.

PEARL PARKINS VICTIM OF VALLEY STORM

One of the victims of the recent big storm which has paralyzed industry, transportation and living conditions in the western part of the state for several days was Pearl Parkins, whose snow-covered body was found Monday about 300 yards from the barns on his ranch two miles west of Timber. Immediate cause of death was attributed to heart trouble. The body has been forwarded to Pendleton for burial.

Parkins was well known in Morrow county. He spent most of his young manhood in or near Heppner and in the Ritter country where he engaged in the sheep business. He had a brother, James, who was associated with him. A sister, Mrs. Coy Thornburg, resides in this county.

WIFE OF NATIONAL CHAPLAIN VISITS

Mrs. Hulda Mortimore of Pocatello, Ida., formerly of this vicinity, has spent the past week visiting relatives and friends in Heppner, Lexington and Stanfield. Her husband, Paul D.F. Mortimer, is the national chaplain of the American Legion.

Behind the Scene At Salem

Continued from First Page

This week also saw the big truck legislation get started when public hearings were held on House Bill 44, to permanently raise the size of trucks to some 71,000 instead of 64,000, pounds. The truck men used to ask for 63,000 pounds but have gone up in their estimates of how big a truck should be.

The bill is a hardy perennial, having been around Salem for 10, these many years, and always having been decided in favor of the railroads instead of the trucks, however, the state has permitted large trucks during the war.

There isn't much else but there will be. The end of the period for introducing new legislation in the house is next Saturday. The speaker says it will be five o'clock sharp and that bills will have to go through the Legislation and Rules committee after that date. The senate makes no such rule and besides large influx of new legislation is committees can introduce bills. A looked for before Saturday although both house rules committee clerk, who writes many of the bills, and the attorney general's office, both report no great list of bills waiting to be written.

If the senate follows the action of the house it will be possible for

wine bibbers to partake of their favorite beverage over the bar, providing that the wine must be naturally fermented, not over 14 percent made of berries and other natural fruit juices. The selleh of wine must pay a license of \$50 which in most of the 22nd district will probably prevent the sale for what wine drinkers there are among the wheat farmers and sheep herders of the 22nd district like the harder, quicker stuff. Incidentally the fortified wines, which make up over 90 percent of wine sales, will probably be put in liquor stores or abolished entirely if the sentiment against "winos" grows around the legislature. "Winos" often wind up in state institutions.

So far the only unemployment compensation amendment offered is for a very minor change in the law and this may be one session when that law does not cause a disturbance of some rather violent sort.
