HOLLYWOOD CLOSE BY, NO PASSES ALLOWED

From Glendale, Calif., comes a lament from Pvt. Willard L. Martin and we think he has a just complaint. In the first place it takes nearly a quarter of a page for Pvt. Martin's address, and that constitutes a problem for the newspaper to get his paper to him—it requires all of the space on the addressograph plate. But this is Pvt. Martin's story, not ours.

Heppner Gazette Times,
Dear Sir:

Please forward the Heppner Gazette Times to my new address. Accept my many thanks for the above.

paper. I'm sure all of us boys that receive it enjoy it, as it's one way of getting some home news.

I hope to be over with the other boys before long if I ever get thru school. Upon graduating from aircraft basic training at Gardner Field last week I was ordered to this advanced technical specialist school. It is a three and one-half months' course of intensive air corps training.

How do you like this? I'm stationed three miles from Hollywood and we are allowed no passes off the post.

Sincerely yours,
Pvt Willard L. Martin.

Ed. note—You might try writing your congressman, Willard.

Mustangs Drop Hot Behind the Scene One to Honkers At Salem

Heppner's Mustangs lost a thriller to the Honkers Friday evening on the Arlington floor, taking the short end of a 39-37 score. Behind 25-14 at halftime, the Mustangs went into a scoring spree to tie the game up in the middle of the final quarter, only to lose by a margin of two free throws.

Arlington started the game by hitting the hoop from every angle while the Mustangs tried to keep up, but finally let the winners hold a first quarter score, 12-7. The second quarter was a replica of the first with Clough, McClaskey and Scoggins definitely "hot" as Arlington went way out in the lead with an 11-point margin.

It looked like a rout for the Mustangs, but the visitors began getting into the spirit of things and dropping baskets to climb within seven points of the lead. Bill Ulrich, sub guard, showed the Honkers a lesson in hitting howitzers as he canned four consecutive baskets to tie up the game, 37-all with three minutes to play. The Honkers plunked in a couple of foul shots in the closing minutes to put the game on ice.

High scorers for Arlington were McClaskey with 14 points and Clough with 10. Barratt and Ulrich led Mustang scorers with 13 and eight points.

Friday the Mustangs will be out to upset the league-leading Condon Blue Devils who are playing here.

The lineups:

Heppner 37	39	Arlington
Barratt 13	F	14 McClaskey
Bothwell 7	F	9 Scoggins
Drake 4	C	Weatherford
Shideler 3	G	10 Clough

Presentation of Awards Made Here

fense council and faithful worker in gathering and loading scrap; Walter Bristow, director of the drive in the Ione Action; Tom Wilson, located and aided bringing in of heavy machinery; Donald Strait, agriculture instructor at Heppner school, directed FFA scrapiron campaign; T. R. Burton, principal of Lexington school and director of campaign in that district; Mrs. Lucy Rodgers as county superintendent of schools aided in organization of schools for campaign; Mrs. Clara B. Gertson, representing health association to receive bond; Rod Finney, special guest; O. G. Crawford, representing the press, and last but not least, Mr. Conrad, chairman of the salvage committee.

Pictures of the presentations were made by Tom Wilson and Donald Strait. These included besides the pennant award, the handing over of the bond by Finney to Mrs. Gertson; turning over the check for the bond by Mayor Turner to Mrs. Gertson, and a shot of the entire group.

Finney stated that the salvage program embraces four major projects—scrap metal, kitchen fats, silk stockings and tin cans. The fact that there are vast piles of scrapiron yet unmoved from the various depots does not mean that the metal is no longer needed or that there will be no more collecting until they are moved. He urged the saving of all materials needed in prosecution of the war and advised that saving and collecting be carried on regularly. The materials will be shipped just as fast as converting plants can handle them.

LEAVES FOR CALIFORNIA

Mrs. Chester Brown was a passenger on Tuesday's stage for Arlington enroute to a California embarkation port to visit her husband, member of the navy "C's". Mrs. Brown recently returned from the east where she spent several days with Mr. Brown at a training station.

truck people have asked for a bigger truck than usual, having gone up from 68,000 pounds to 71,000. In Idaho there is an 84,000 pound bill which is going to raise Lob with the idea of equality again, if passed. Maybe the federal government will have to establish the limit instead of the states.

This is a most conservative legislature. There are few, if any who are radicals, or even few who would agree to any sweeping change in anything. They prefer to patch and amend on minor matters instead of making corrective measures inclusive enough to entirely encompass any situation. Perhaps the people want little change in these war times and maybe that is best. However, it is refreshing to have some one around who believes that some major operations are desirable on major bills.

Best chance of having any big change in state matters comes from the school bill which is still in the committee on taxation and revenue awaiting amendment that will make it acceptable. It has been rewritten by the teachers' committee until there were few lines remaining of the bill passed by the people. The sense remained the same, however. Then it was rewritten again by a sub-committee of the house education committee and the teachers. This operation made it clearer and more definite. Now it is awaiting the action of the taxation committee which may do more work on it.

It has been proposed that if the state is going to adopt the general policy of putting state collected money into school districts it has the duty to see that that money is well spent, just the same as it has apportionments to the state institutions the duty to see that the money is from it. What form it may take is well spent. Something may come cannot be prophesied—at least by this source—but it may result in some school changes—that will be desirable from the point of organization and efficiency.

ERNEST JULIAN FORBES

Memorial services for Ernest Julian Forbes were held in the Elks hall at 2 p. m. Monday with the lodge in charge. Venerable Eric O. Robathan of Pendleton read a brief service and a letter written to Mrs. Julia Glaesmer by Ernest's commanding officer at Dalhart, Texas. A male quartet sang two numbers, accompanied by Mrs. J. O. Turner. A large crowd was present to pay final tribute to one who had given his life in the service of his country.

Ernest was born Feb. 17, 1918, at Summit Ore. to Elmer and Lou Forbes. The father passed away when Ernest was a small boy and he was adopted by Ernest and Julia Clark of Heppner, who raised him. He attended the Heppner schools, graduating from the high school in 1935. He planned to attend college but remained at home to assist his mother with the care of his home. After his father's death he was a great comfort to his mother.

Ernest took up flying in July, 1940 and became a pilot. After that he joined the United States army and graduated as an airplane mechanic with the rating of sergeant. He was at numerous training fields and in June 1941 decided to take up glider piloting. He won his wings as a glider pilot, Aug. 24, 1942 at Twentynine Palms, Calif. From there he was stationed at Dalhart, Texas, where he was taking an advanced course in heavy transport glider piloting and within this week would have won his commission in

Left to mourn his loss are his mother, Mrs. Julia Glaesmer, his only brother, Staff Sgt. James E. Forbes of the U. S. army air corps, and several aunts, uncles and cousins.
