

THE 2ND WAR LOAN DRIVE IS ON!

It's Ten Minutes to Midnight!

Wake Up, Americans...Your Country's Most Fateful Hour Is Near

THE hour when the final die is cast, when decisive victory hangs in the balance. The hour which will decide the future of you and your children... a future of joyous freedom or a future of endless serfdom.

Yes, it is ten minutes to midnight. And when the first stroke of that fateful hour begins to sound, it will be *too late* to throw your weight into the fight.

The time to do that is NOW.

Now, when your dollars can keep the production lines humming. Now, when your dollars can buy the tanks and guns and planes and ships our soldiers need to fight a winning war... the only kind of a war we can afford to fight. Now, while there are still ten minutes before midnight.

Your country is asking you to lend your dollars in greater amount than ever before. It is asking for 13 billions of dollars *extra* this month... 13 billions for the weapons of war to make sure that *it is our side* which dictates the peace.

If we do not win, the money you fail to lend now will be worse than useless to you. If we win, as we *must*, the money you lend now will be returned with interest... for you to spend on the good things of life... for you to enjoy in a free and safe world.

So dig down, Americans. Answer the challenge by buying War Loan securities this month with every idle dollar you have except what you need for the barest necessities of life.

Don't wait for the War Loan Volunteer. Beat the gun by going to your bank, investment dealer, broker, Post Office, or bond booth *today*.

Have your money in your fist... the fist that can deliver the knockout blow to the Axis. But hurry...

For it is ten minutes to midnight...

The hour that can strike the knell of doom—or the blessed song of freedom.

Your dollars can call the tune.
