What has a Victory ship to do with the market business? you ask. Well, more Victory ships carry more food to more of our soldiers and our Allies to hurl more force against the Axis.

As more and more ships are built, more food will have to be conserved at home. Careful buying and avoiding waste will aid in this program. You can do your share by buying where the best stocks are carried. Let's keep the Victory ships loaded with food for our defenders and at the same time keep well fed at home.
