

Luncheon Group Aids Hospital Fund

Hospital funds and soldier recreation took up much of the discussion time at the weekly business men's luncheon Monday at the Lucas Place. Chairman Charles B. Cox presented Mayor J. O. Turner, who spoke a few minutes on the new pay-as-you-go tax plan, arriving at the conclusion that no matter how it is paid, the government will leave you little at the best.

An appeal for funds for the McCaw General hospital in Walla Walla resulted in a donation of \$10 from the group.

Discussion of soldier recreation failed to produce anything of a workable nature. Uncertainty of the use of Camp Heppner by the army left the question up in the air insofar as organizing for regular recreation and entertainment.

LOCAL REPRESENTATIVES RETURN FROM INSTITUTE

Mrs. F. W. Turner and Mrs. Chris Brown returned the last of the week from Portland where they attended the International Relations Institute. A number of speakers were from foreign countries, or represented foreign countries and the local people feel they learned many things of vital interest to the world at large. Some of the foreign speakers were difficult to understand and it is possible many points of interest were missed. Two foreign educators now teaching in western schools were Dr. Peter Kunkle, German, of Los Angeles, and Dr. Frank Munk, Czechoslovakian, now teaching at Stanford university. Mrs. Edna Turner who has been at Eugene several weeks joined the other ladies at Portland to attend the Institute.

MISS PARKER ELECTED TO TEACH SECOND GRADE

Miss Kathryn Parker, daughter of Mr. and Mrs. F. S. Parker of Heppner, has been elected to teach the second grade in the Heppner school. The school board took this action upon receipt of the resignation of Miss Marthena Martin primary teacher here the past year. Miss Martin has accepted a position in the Bend school system.

A rearrangement of the primary department calls for Mrs. W. O. Dix and Mrs. Edna Turner to teach first grades and Miss Parker the second grade.

A graduate of Heppner high school and the Eastern Oregon College of Education, Miss Parker taught the past year at Myrtle Point.

To lubricate Uncle Sam's submarine Diesel engines so they run clean and smooth on long cruises, the Navy uses RPM DELO.

The Navy is sharing this "secret weapon" with the home front . . . and RPM DELO is doing a great job in thousands of tractor, truck, marine and stationary Diesel engines. It's specially compounded to prevent sludging and gummed-up pistons—it actually cleans and frees rings stuck through use of other oils. Millions of test miles in laboratories and actual service proved that it just about DOUBLES THE TIME BETWEEN OVERHAULS. The Navy can't afford to take chances with its fighting Diesels—and neither can you. Get RPM DELO and you get the all-around lubricant for all Diesels.

GETS THRILL OUT OF PLANE LANDING

Meeting the local "flyer" used to have its moments. That was in the days before aviation became a regular feature of our travel life. Nowadays people drive out to the airport if a member of the family or a friend is scheduled to arrive by air, and this is quite a thrill, according to Mrs. F. W. Turner who had the privilege of meeting her on Robert V., in Portland last week.

Robert's work calls for speed between Detroit and western centers and he takes to the air quite frequently. On this occasion he came in on a big airliner which had battled a heavy storm in North Dakota and suffered extensive damage. But crew and passengers arrived safely and that's what counts.

UP FROM IONE
