This is the right date, regardless of the one appearing in Mr. Yarnell's advertisement on another page of this issue, and which is an error on the printer's part.

Council Chairman Reports County as Out in Front Again

Mrs. R. I. Thompson

The people of Morrow county have done it again. We won the flag and bond for scrap collections, have bought our quota of bonds consistently, turned in over-subscriptions to the Red Cross and went over the top in the U. S. O. drive, and now our county has a generous amount of money on hand to help with the work of the Blue Mountain council. From the time of the first deposit, June 26 until July 28, the sum of \$1663.50 has been deposited in the bank. The women of the county should be given the credit for the success of this collection as only three men helped to gather the money. We are most grateful to Father McCormack, Harold Cohn and Cliff Conrad for collecting in the business district of Heppner. We are also grateful for the space given us in the Gazette Times and for the splendid editorials the editor has written in behalf of the council. The manager of our bank has our thanks for caring for deposit slips, lists of all names and all the details to take his time and attention.

We owe a debt of thanks to all the solicitors who cheerfully gave their time in rolling up this large amount of money. We owe another debt of gratitude to all the people that reached down in their pockets and handed out the necessary cash. So many of you came up with five and \$10 apiece making this huge sum possible. Many gave more than was anticipated.

Regarding money sent to the council, on July 3, \$150 to furnish a sun room. Our check arrived late so the money was used to purchase chairs for a sun room. A check for \$5 was given to purchase a rug for a sun room. July 14, \$400 was sent to pay for air conditioning unit and venetian blinds for one ward. A letter arrived from the secretary of the council stating the government was buying air conditioning for all wards. Col. Miller, commanding officer of McCaw hospital, asked that our check be put in a special fund to take care of emergency needs for the comfort of the patients and that he felt sure something just as necessary would arise in the near future. We have written Col. Miller to use the money for any purpose that would help the boys and to let us know what it is used for. From time to time we hope to publish a list of items purchased with your donations to the council.

The following figures have been released by Mrs. Ralph Thompson, chairman of the Morrow county unit of the Blue Mountain Camp and Hospital council. The money has been subscribed by Morrow county citizens and the break-down of the total collection is as follows:

- Ione, including dance bottle of \$25.27, total, \$435.09.
- Lexington, dance bottle, 14.08, total \$208.55.

A brightly machined piston looks as slick as glass. But see it through a microscope:

That snaggle-toothed saw edge can rip gouges in cylinder walls in a flash. That's why you use motor oil to keep cylinder and piston apart. And that's why you need an oil like "RPM"; one that won't leave bare spots, by crawling away from high engine heat, or draining into the crankcase when the engine's idle. Special compounding makes RPM Motor Oil cling stubbornly to hot or cold metal surfaces. Now, when cars and parts are precious—switch to RPM Motor Oil, and change it every 1000 miles—right on the dot!
