

Bench Pads and Cushions Forwarded To McCaw General

Mrs. R. I. Thompson

The flowers this week go to the women who have completed the project of making the 12 bench pads and the 12 cushions for McCaw hospital. We should pin them on Mrs. Bob Thompson, Mrs. C. C. Patterson, Mrs. Edna Turner and Mrs. Frank Turner. Other women in the neighborhood helped to get them off by express Monday evening. In the heat of mid summer is not the nicest time to sew or work with feathers but these women did just that. The cushions and pads were so well made and so good looking we know they will elicit many compliments. There is another side we have heard about. The boys are so appreciative of the fact that some one cares if they are comfortable. Many are far from home lonesome, and when such thoughtfulness is shown them they always ask where it comes from. So the people of Morrow county are getting a fine reputation at McCaw since we have shown such an interest in the patients.

Going back to the cushions, these workers did such a thrifty job as no material was purchased to make the ticks. Some material was given to start with and then, as feather

ticks were emptied, they were washed and made into more ticks. When the supply of feathers ran low some silk floss mattresses were given and so all the cushions and pads were made three inches thick. Enough filling was used so they would stay that thickness. Enough material was donated to cover six cushions and one long pad. The remainder of the material was purchased in local stores and part of your donation was used in buying it. Our thanks to all who donated material and filling.

We might be asked later on in the year to supply more pillows or pads and I would feel embarrassed if I had to report it would be impossible because there were no more feathers left in Morrow county. If anyone does have feathers they would give please list them with Miss Florence Bergstrom so if we should need them we could call for them.

Here is good news concerning the day room at the bombing base in Boardman. The government is supplying some much needed new furniture down there and will take care of their needs from now on. They were very grateful for the car load of magazines that Mr. Conrad took down a few weeks ago. These were collected by Marcella Jackson and Patty O'harrar in Lexington. We feel they would like magazines, funny books and the small paper back books at least once a month. I believe our county officials would be willing to take these things down when they make their trips into that part of the county. But let us be sure the magazines and books are such that boys and men would be interested in them.

Frank W. Turner was a business visitor in Walla Walla Tuesday evening.

Japanese army authorities, Norman sent greetings to his friends at home.

ELMER E. PADBERG GAINS PROMOTION

Elmer E. Padberg of Lexington has been promoted from Private First Class to Technician 5th Grade. It was announced by Lt. Col. Donald Hurson, commanding officer of the service group with which Technician Padberg is stationed at Biggs Field Texas.

Before entering the army in December, 1942, Padberg was employed as assistant clerk in the Umatilla Ordnance depot. He is now assigned to duty as a supply clerk in the Ordnance Supply and Maintenance company of the service group. A "T" beneath the two stripes of his chevrons designates him as an army technician.

The son of Mr. and Mrs. Oris H. Padberg, Lexington, he is a graduate of Lexington high school. He excelled in basketball and football while in school, winning seven varsity letters.

ONE SON IN HOSPITAL

Uriah J. Stotts had two boys in the war. Now they are both out of it due to different causes. The younger son has been invalidated to the states from Alaska and is hospitalized in Spokane. The older son is a prisoner of the Germans, apparently taken during the Tunisian campaign.

Mr. Stotts received word of the elder boy's plight in July through the Red Cross. By the same medium he is sending a box of things from home to his son.

NOT IN TEXAS

Vester Hams is at Camp Hale, Colo., where he is a muleskinner in a quartermaster pack company. The statement that he was a paratrooper and stationed in Texas, as reported in last week's Gazette Times, was erroneous. Mrs. Hams returned recently from Colorado where she spent some time near Camp Hale.

RETURNS TO CAMP

Philip Cohn returned to Farragut, Ida., Tuesday to resume training after spending a 15-day leave with his parents, Mr. and Mrs. H. A. Cohn. Philip expects to be transferred to a point in the east or middle west, possibly Chicago, where he will take school in radionics.

CLAIR COX CALLED

Mr. and Mrs. W. C. Cox received word the past week that their son, Clair H. Cox of Portland, who has been an army air corps reservist for the past year, has been ordered to active duty. He reported Saturday at Fort Douglas, Utah. Clair has been employed at the Oregon Shipbuilding corporation's Swan Island plant for the past two years and prior to that was employed as salesman for the Smith Lyon Motor company.

CARD OF THANKS

We take this means of expressing our heartfelt thanks for the kindly assistance and words of sympathy in our bereavement and for the beautiful floral tributes. We especially desire to thank the men who kept our harvester going. Such acts can never be fully repaid.
Emma M. Evans and family.

CARD OF APPRECIATION

We wish our neighbors and friends who came to our assistance

in Sunday's fire to know how deeply we appreciate their thoughtfulness. But for your timely aid our losses would have been much greater.

Frank Wilkinson
Hugh Smith

A WORD OF THANKS

We wish to express our thanks to relatives and friends who rushed to our assistance Sunday and helped subdue the fire which partially burned our grain field and threatened our home.

Mr. and Mrs. Dee Cox, Jr.

VISITS SISTER

George Perry of Pendleton was a week-end visitor in Heppner, a guest at the home of Mr. and Mrs. Earle Gilliam. George, who is Mrs. Gilliam's brother, has been with the railroad company many years and is employed as a painter.

A "SECRET WEAPON" the Navy shares with you

To lubricate Uncle Sam's submarine Diesel engines so they run clean and smooth on long cruises, the Navy uses RPM DELO.

The Navy is sharing this "secret weapon" with the home front... and RPM DELO is doing a great job in thousands of tractor, truck, marine and stationary Diesel engines. It's specially compounded to prevent sludging and gummed-up pistons — it actually cleans and frees rings stuck through use of other oils. Millions of test miles in laboratories and actual service proved that it just about **DOUBLES THE TIME BETWEEN OVERHAULS**. The Navy can't afford to take chances with its fighting Diesels—and neither can you. Get RPM DELO and you get the all-around lubricant for all Diesels.
