

Man's Body Taken From Columbia River

County coroner A. D. McMurdo was called to the north end of the county Saturday to examine the body of a man taken from the Columbia river. The body was recovered by T. B. Hogue, Patterson ferry operator, who discovered it in the water and reported to authorities. Dr. McMurdo was accompanied by Sheriff John Fuiten and County Attorney P. W. Mahoney.

No foul play was indicated and it was thought the man had been in the water about two months. He was six feet tall, weighed between 180 to 190 pounds and was brought to have been between 45 and 50 years of age. The body was nude except for a pair of shorts.

Fingerprints were taken and officials are awaiting returns on this to establish identity of the man. Immediate burial was recommended by Coroner McMurdo and the remains were laid to rest in the county's section of the Heppner Masonic cemetery.

Funds Subscribed Here Make Piano Purchase Possible

By MRS. RALPH THOMPSON

The bouquets this week go to everyone who donated funds to the Morrow county committee. Your generosity made it possible for you to furnish a small piano to be used in the wards at McCaw, army hospital. This gift of a piano was something long wished for but more important needs were taken care of first. Because this county raised such a large sum we have been able to supply many pressing needs these last two months but the piano will mean more to the boys in bed than anything else that has been given.

We were fortunate to find a small instrument, just 44 inches tall, 24 inches wide and 56 inches long. It was good and in good condition as Mrs. Walter Moore checked it for us. So we know it was a good one. The price of \$250 delivered was not considered too much as all pianos have increased in price and such small ones are hard to find. The carpenters at McCaw will build a small platform with castors in each corner so it will be easy for the boys to move it and easy on the piano as well.

Since July 29th when we published the total contributions as \$1663.50, we wish to report that the total has grown to \$1712.50. This was made possible by the \$5.00 given us by several persons, \$10 from the Pomona grange at Ione and the generous gift of \$35 from Mr. and Mrs. Harlan McCurdy. Of this sum \$905 as been used at McCaw which includes the cost of the piano, \$22.05 was used in buying material for the cushions and bench pads and \$6.61 was necessary to pay the express of the latter to Walla Walla. When you read these totals please remember the first \$555 sent was allotted for work we did not do the first year the council was organized. Members of the committee and others were asked their opinions before any money was spent and the final word comes from Mrs. Fred Mankin, of Ione, as to just what we shall furnish and how much we should pay out. It was surely kind of Mrs. Mankin to take this responsibility after giving so much of her time in collecting funds.

RETURNING SATURDAY

Archdeacon and Mrs. Neville Blunt will return to Heppner Saturday after spending a month in Pendleton where the archdeacon supplied for Rev. Eric O. Robathan. Rev. Blunt will hold services at All Saints Episcopal church, Sunday morning. He and Mrs. Blunt will go to Cove Tuesday to attend the church conference, following which they will resume residence here.

but ship by truck instead. This will increase as time goes on, he stated.

Mayor J. O. Turner thanked the commission for the oiling job done on Heppner streets this spring. He called attention to the inadequate clearing of highway bridges over Willow creek in the city, stating that they form dams in times of high water. He asked for better clearance and a widening of the traffic lane by removing the walks from inside the railings and placing them on the outside, devoting the entire bridge surface to vehicle traffic.

W. H. Lynch of the bureau of public roads stated that due to lack of materials the bureau has no road program at present, not likely before hostilities cease.

T. H. Banfield, chairman of the commission, stated the object of the visit was to give the new commission an opportunity to meet the courts and other interested groups, as well as gaining first hand information on the condition of the state's highways. Things seen and learned on these inspection trips will be studied to formulate the highway program.

The visitors were guests of Heppner chamber of commerce at a luncheon at the Lucas Place, at which President Clarence Rosewall presided. A dozen or so members of the chamber of commerce also attended the luncheon.

The party was headed by T. H. Banfield of Portland and included A. W. Schaupp, Klamath Falls and M. E. Chessman, Astoria, commissioners; R. H. Baldock, Salem, state highway engineer; H. B. Glaisyer, Salem, commission secretary; H. G. Smith, Salem, construction engineer; S. H. Boardman, Salem, parks superintendent; Wm. E. Chandler, Bend, division engineer; Paul Van Scoy, La Grande, division engineer; T. M. Davis, Portland, engineer; Public Roads administration; John Kelley, Salem, director, postwar readjustment and development committee; Ralph Watson, Portland, Oregon Journal; Dr. E. B. McDaniels, Portland, president Oregon State Motor association; Senator Marshall E. Cornett, Klamath Falls; W. H. Lynch, Public Roads administration, and Joe Gerber, Portland advertising man.

TWO MORROW COUNTY BOYS JOIN MARINES

Charles Frederick Markham of Irrigon and Blaine Leroy Turner of Ione entered the marine corps last Friday after induction for the armed forces. They will be sent to San Diego for basic training Sept. 3 after short furloughs at home.

Private Markham is the son of Mr. and Mrs. Harry A. Smith and a graduate of Irrigon high school. Pvt Turner's parents are Mr. and Mrs. Blaine Turner of Portland.

FORMER RESIDENT ENLISTS

Miss Geraldine Mary Watson, a former resident of Heppner and a beauty operator at Myrtle's Beauty shop here in 1941-42, has enlisted in the WAVES, women's service of the U. S. Navy, and is awaiting assignment to the WAVES indoctrination school at Hunter's college of Columbia university, New York City, it was announced by Chief John H. Bedford, in charge of the U. S. Navy recruiting substation at Pendleton, which handles applications for WAVES in the Heppner-Pendleton area.

Miss Watson was formally sworn into the WAVES at the Portland branch. She completed her tests with an outstanding record.

She is the third member of her family to enlist in the armed forces. A brother, Gerald Watson, is a sergeant in the U. S. Army Air force, now stationed in Louisiana. Another brother, Eugene, is a corporal in the U. S. Army Air force now stationed in Utah.

—And It Can Cut Your Overhauls in Half

Now, U. S. submarines reach right out to Nippon's beaches to land haymakers on Jap shipping. One reason is because their Diesels are lubricated with RPM DELO. It contains a special compound that eliminates sticking rings, keeps pistons clean after thousands of miles of heavy-duty operation, ends bearing corrosion.

Now, you need RPM DELO more than ever, to cut wear to a whisper and stretch the life of scarce parts.
