Library Use Urged Upon County People

A great many residents of Morrow county do not take advantage of the facilities offered by the Heppner public library. The percentage of readers represents a very small number of the population. It may be that many do not realize what a complete and up to date institution this public service is. A wide range of material is available on most every subject, and new books are received every six months representing the latest in fiction, bio-

graphy, modern history and other subjects. There is also a fine juvenile department, which the children who have formed the habit of using, enjoy very much.

In addition to the new books purchased by the library association, some are furnished yearly by the Bert Sigsbee Memorial shelf, Morrow county Woolgrowers' auxiliary, Elks, and the American Legion auxiliary.

Among the good new books received by the library recently are: Capricornia, Herbert Xavier; Man Tracks, Bennett Foster; The Ship, C. S. Foster; Another Claudia, Frank-en Rose; On Being a Real Person, Harry Fosdick; Mr. Lincoln's Wife, Anne Colver; The Sea is So Wide, Evelyn Eaton; You Did It, Eaton Goldthwaite; Prodigal Woman, by Hale; Hungry Hill, Daphne DeMaurier; Roughly Speaking, Louise Pierson; A Tree Grows in Brooklyn, Smith; Barriers Down, Kent Cooper and My Friend Flicka.
