

**Ration Book Issued From Office after Nov. 9**

Applicants for ration book 4 who could not contact one of the schools open for that purpose Tuesday, Wednesday and Thursday of this week are advised that their applications will be handled at the county ration board office in Heppner after Nov. 9. The office is not receiving them until after the aforesaid date. Officials of the board hope that applicants will bear this date in mind and not make unnecessary trips to the office. All applications will be acted upon at the proper time, the office states.

This newspaper got mixed up on the dates last week and may have caused some people to defer coming to town until Friday. However, reports indicate that book 4 has enjoyed a wide circulation throughout the county the past few days.

**FOR RENT**—Strictly modern apartment in two or three weeks; no children. O. M. Yeager. 31-33c

**ESTRAYED**—Hereford cow and calf; sow branded BU on left side, also a Z. Claude Buschke. 31-32c

HUMPHREYS DRUG COMPANY

**HERE FROM PENDLETON**

Miss Ruth Green, employed at Pendleton air base, spent the week-end with her mother, Mrs. Alex Green.

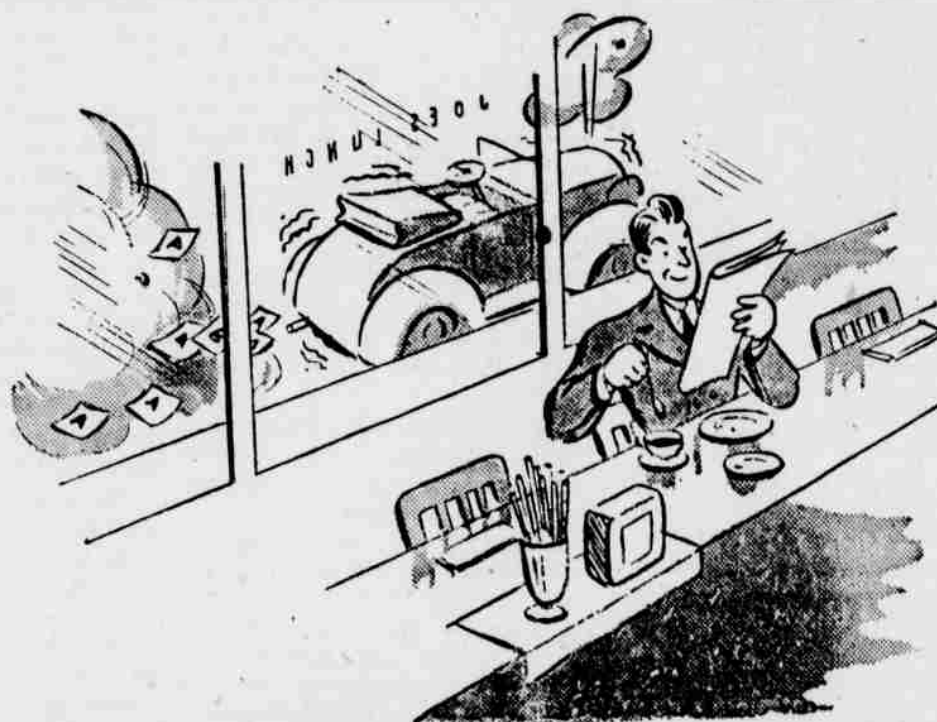

**VISITING IN VALLEY**

Mrs. E. R. Huston is spending the week in Salem and Albany with relatives, visiting her daughter, Mrs. Mark Taylor, in Salem and

brother and family in Albany. She accompanied Mrs. Verle Frederick-son and son Don and Mrs. Don Romine as far as Monmouth last Friday. Mrs. Romine went on to

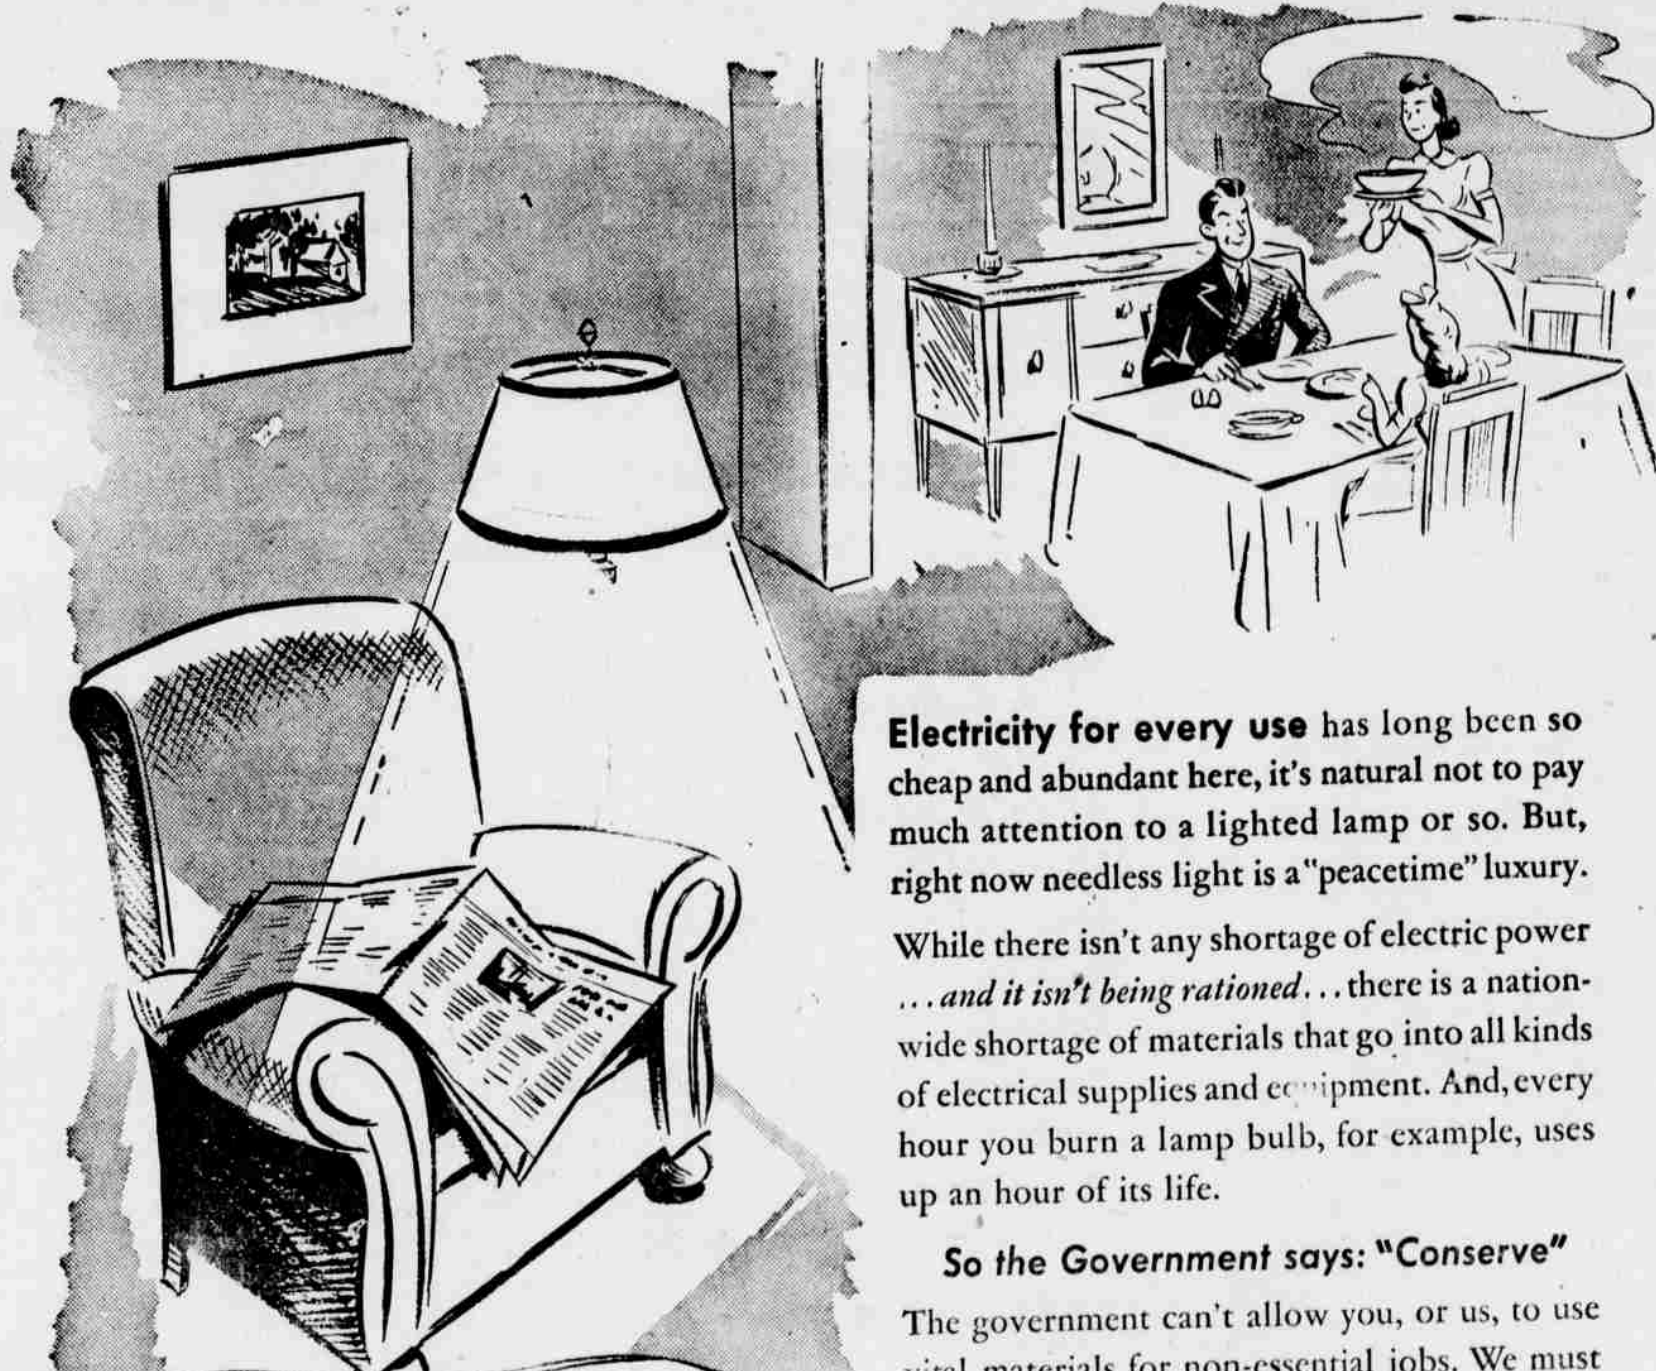

Corvallis to enjoy the week-end with her husband, who is stationed at Camp Adair. To buy, sell or trade, use the G-T advertising columns.

He wouldn't forget to turn off the engine while he stops for a snack...

**HE LEAVES THE READING LAMP BURNING AT HOME!**

Electricity for every use has long been so cheap and abundant here, it's natural not to pay much attention to a lighted lamp or so. But, right now needless light is a "peacetime" luxury. While there isn't any shortage of electric power ... and it isn't being rationed ... there is a nationwide shortage of materials that go into all kinds of electrical supplies and equipment. And, every hour you burn a lamp bulb, for example, uses up an hour of its life.

So the Government says: "Conserve"

The government can't allow you, or us, to use vital materials for non-essential jobs. We must get along with what we have already. And the way to do it is to conserve all along the line. It's our job, and yours, to look ahead and use everything we have wisely.

In the end, it's going to mean fewer burned out lamp bulbs, fewer replacements; your electric range, your refrigerator, and other appliances will last years longer. You'll be assuring yourself of continued good service and economy till the time comes when you'll be able to get the marvelous new electrical servants that will be yours after the war.

**USE WHAT YOU NEED... BUT NEED WHAT YOU USE!**  
The WPB asks everyone to help save by avoiding waste. But don't endanger your eyes, your safety or health. Follow the rule of "Use what you need... but be sure you need what you use."
