BASKETBALL GAME TO BEGIN NEXT WEEK

The Mustangs ended their football season Friday with a bang, defeating the Condon Blue Devils, 33 to 13. This win caused Heppner and Arlington to tie for the Big Wheat League championship.

Now that football season is over, the basketball season soon will get under way.

Schunk and Ulrich are the only lettermen returning from last year's championship team. Despite the fact that there are only two lettermen another good team is expected this year.

The first game may be scheduled with Ione Dec. 3; if not, it will be with Hermiston here, Dec. 17.

CHORUS ASSEMBLY HELD

The assembly Wednesday was composed of the high school girls' chorus. Their program included three songs: "I'm Always Chasing Rainbows", "Dear Land of Home" and Thansgiving Hymn."

This was held at 1:50 p. m. and immediately following school was dismissed.

SOPHOMORES ENTERTAIN

The sophomore class held their annual assembly in the study hall Nov. 20.

Their assembly was in the form of the radio game, "The Battle of the Sexes." They used faculty members for participants. Mr. Corwin, Mr. Parker and Mr. Peavy, Miss Mardock, Miss Moyer, and Mrs. Clary.

It ended with the women victorious by a score of 65 to 50. The prize for the ladies was a 50c war stamp each, and the men received for their gallant try, a package of gum, with the consequence of singing "Pistol Packin' Mamma."

The assembly ended with a reading by Bob Kelly on a humorous facsimile of U. S. history.

PRINCIPAL ATTENDS CONFERENCE

Last Tuesday and Wednesday, Nov. 9 and 10, Mr. Parker, Heppner high school principal, and family, along with Mr. Jensen Lexington and Mr. Stiles, Ione superintendents, attended the Oregon school administrators' conference at Salem.

They returned Armistice day after gaining much knowledge on policies of school finance, and extra school credit which were discussed. Many excellent and timely addresses were also heard.

Personalized stationery for the army and navy trainees. Make your selection now so we may print his name in time for early mailing

WE SHARE OUR DAIRY PRODUCTS

The new wartime milk conservation program is in reality a voluntary sharing plan—an effort to distribute the available supply of milk, in all its forms, to a great number of people in order to accomplish the greatest good.

Most civilians know that milk, butter, cheese and icecream are required in tremendous quantities for camps, training centers and defense plants in this country. But how many know that milk from the farms of America is reaching Great Britain as cheese, Russia as butter, China and Africa as powder, and French and Italian youngsters in evaporated form? Dairy products which can be shipped abroad in compact form are doing triple duty—for military requirements, lend-lease and foreign civilian relief.

Out fighting men must continue to be the best fed army in the world—we must share our milk and milk products with our allies—civilians at home must continue to get dairy products in

amounts which will maintain health and strength. But, consumption of milk has increased steadily in the face of a recent decline in production. The use of butter, cheese, evaporated milk and ice cream has been restricted for some time by government orders. Conservation of fresh fluid milk, the last dairy food to be restricted in its use, will result in more milk for manufacturing purposes, for military purposes, for lend-lease and to meet other special needs.

All civilians may not get as much milk as they want and sometimes not as much as nutritionists recommend. In all cases it means providing milk first to those who need it most. It means using milk to the best possible advantage—saving every precious drop and protecting its food value and flavor for greatest nourishment and enjoyment.

This Rice and Cheese pudding makes a grand main dish and provides plenty of nourishment and flavor.

RICE and CHEESE PUDDING

2 cups medium white sauce, 1/2 cup cheese, 1/4 tsp dry mustard, 1 tsp cup cooked rice, 1/4 cup grated salt, pepper, paprika.

Stir rice and cheese, into white sauce. Add egg yolks, slightly beaten. Add seasoning. Cool. Lastly, fold in egg whites, beaten stiff but not dry. Pour into buttered shallow casserole and bake in a moderate oven (350 degrees.) Serves four.

Next Year Will Be Different

NEXT year will be different. Not only the weather, and markets, and the needs of the country. Our jobs will be different, too. Because next year we're going to do those jobs differently—and we hope better!

We, whose job is producing goods and services, have been making resolutions like this for years. And we've been keeping them! For in our kind of business, you either keep on finding better ways of doing things, or—you go backward! And if enough people do that, the thing we call progress bogs down.

That's why farmers keep on trying new seed, and fertilizers, and machines, and strains of stock. That's the reason industry carries on research—another name for a constant search for new knowledge and better ways to do things. Because most of us have been doing this for years, America has had the highest standard of living in the world. And it's the reason, too, that American production is doing so much today to bring victory.

After the war, America is going to need more than ever men with the courage and enterprise to invest time, money, and hard work in the search for better things. And if America's producers understand each other, and each other's problems, we'll be able to do these all-important jobs better. General Electric Co., Schenectady, N. Y.
