MUSTANGS SWAMP LEX JACKRABBITS

The Heppner Mustangs opened their basketball season on the home court with a 33-12 victory over the Lexington Jackrabbits Friday Dec. 10.

The Mustangs scored 14 points in the first quarter to give them a lead that was never in danger. Bill Ulrich scored 12 of the first 14 points making himself high point

man for the game.

In the second quarter, Coach Corwin sent in a new team for the Mustangs. Though they scored only two points, they held the visitors to six points. The half-time score was 16-6 in favor of the Mustangs. The starting lineup played all of the second half except the last two minutes when the other team was sent in again.

Both teams showed lack of practice and experience. The final score was 33-12.

MRS. RODGERS AS SPEAKER

Mrs. Lucy Rodgers, county school superintendent spoke before the Heppner high school assembly on Monday morning. Her talk was very informative in the matter of the office of county school superintendent, the qualifications and the duties which Mrs. Rodgers must now perform as holder of this office.

She ended her speech with emphasis on the low attendance of high schools throughout the coun-

ty and the importance of emphasis that should be placed on better attendance.

HEPPNER TO PLAY HERMISTON QUINTET

The Heppner Mustangs will be hosts to the Hermiston basketballers Friday night, Dec. 17.

Hermiston has two games of experience behind them this season while the Mustangs have only one. They swamped Pilot Rock by a large score with Williams, a former Heppner student, as high

popint man. They also beat Pendleton last week.

Hermiston has several returning lettermen this year while the Mustangs are starting with a rather green squad, Schunk and Ulrich being the only returning lettermen.

NEW ADDITIONS TO SCHOOL BEING BOUGHT

Several worthwhile steps have been taken recently by the student council which need praiseworthy notation.

No "Italian Style" Potatoes for our Boys in Italy!

ANOTHER WAY THE

PACIFIC NORTHWEST IS HELPING THE FIGHTING FORCES...

THEY'RE MASHED with BROWN GRAVY

Thanks to the American miracle of dehydration!

Their table may be an oil can or a busted ammunition case—but there's no question about the food. It's the real American, *home-grown* variety... and this year, more and more of it is going from right here in Washington and Oregon.

Potatoes are just *one* good examples.

In spite of labor shortage, the acreage for this crop was almost doubled in the last year. Dehydration plants have been enlarged, too, ready for their job of reducing each 100-pound sack to a cargo-saving tin of only 15 pounds.

Yes, *fighting food* is all-important right now. The growers and processors are doing their jobs; it's up to all of us to give them *all* the help we can!

Low-cost PP&L electricity is doing its part on more than 12,500 farms, and in scores of packing and processing plants that have grown up throughout the territory we serve. For 33 busy years of Pacific Northwest progress, it has been our job to have power ready to serve each new agricultural industry as it was developed... and to help find more ways to cut production costs by putting cheap and dependable electricity to work!

YOUR BUSINESS-MANAGED POWER SYSTEM

Remember...Waste in War is a crime...Don't Waste Electricity just because it's cheap and unrationed
