Report on Hospital Activities Due 26th

By Mrs. Ralph Thompson

A meeting of the Morrow county committee for the Blue Mountain Camp and Hospital council will be held Feb. 26 in the county agent's office. The public is very welcome to attend this meeting which will start at three o'clock. A complete report from July 1st to the present time will be given. Such a report will contain the amount of money given, the gifts which have been purchased as well as a list of gifts donated each month to both McCaw and Pasco hospital wards. We are not asking for funds at this time as we still have a bank account but of course we never turn down offers of money or other help. We hope you will be proud of this report and as appreciative as are the patients at McCaw and Pasco Naval station. We hope some person will be present to represent every grange, school, lodge and church. We have been asked to provide not only birthday gifts at McCaw but also for the boys with tuberculosis who have been transferred from McCaw to the Veterans' hospital in Walla Walla. They would like a birthday cake and ice cream fund to be given each month for these boys at the Veterans hospital and our county should do its part toward this effort to make these patients happy. So many fine things have been done for those at McCaw.

Glamour of Wood

No Foolin'

... loggers are writing fashion ads these days

What a versatile substance is wood! The tree felled by brawny lumberjacks may now wind up as delicate negligees, svelte evening gowns, neckties or pairs of hose—or as dynamite!

No crop we grow is as various in its ultimate uses as our forests. They may house us, clothe us, protect us, fuel and lubricate our cars, or even feed us. No wonder our forest operators are giving more and more attention, year after year, to the problems of growth—the means whereby this unique heritage from the past may become an ever-renewing resource for the future... tomorrow and always.
